DROP MAT SHELVING SYSTEM

(SUPER ERECTA® AND qwikSLOT™)

Increases Vertical Density. Available in Super Erecta and qwikSLOT styles, the Drop Mat system can maximize vertical storage density. Whether used for merchandising or storage, Drop Mat's thin shelf design, approximately 1/4", can save up to 1 1/4" per shelf level when compared to sheet metal shelving.

Features	Benefits
• Thin, 1/4" shelves	Increases density up to 20%.
• qwikSLOT style shelves available	Can be slanted.
• Built-in Ledge	Frame is attached above surface creating a built-in product stop.
• Quick Adjustability	Super Erecta style is adjustable in 1" (25.4mm) increments. qwikSLOT version allows for the addition, removal or adjustment of intermediate shelves in seconds, at 1" (25.4mm) increments.
• Fast, easy assembly and reconfiguration	No tools required.
• Aesthetically pleasing finishes	Metro's stylish design and a palate of color offerings create an attractive yet strong and durable system.
• Mobile	Optional casters can be added easily at any time.
• Strong, durable	Each shelf can support up to 250 lb. (115kg).

SLANTED SHELVES

Any qwikSLOT shelf can be slanted 2" (back to front) simply by adjusting the rear clips 2" higher than the front clips for a given shelf.

For a slanted shelf with a 10" slope from back to front, the Super Erecta qwikSLOT shelf design allows you to install an 18 inch shelf in a 14" deep unit, with a 10" slope. (Same for 21" shelf in an 18" unit; 24" shelf in a 21" unit).

Important Notes

1. A typical unit will incorporate 4 qwikSLOT posts, at least 2 Super Erecta shelves (one at the top and bottom of unit), and as many qwikSLOT Drop Mat shelves as desired between the top and bottom shelf.
2. A qwikSLOT Drop Mat shelf is rated at 250 lbs. (115 kg) per shelf. A typical qwikSLOT Drop Mat unit is rated at 800 lbs. (375 kg) capacity per unit. For higher unit capacities, an intermediate Super Erecta shelf must be installed approximately at mid-height on the unit.
3. Mobile Applications: All mobile applications require intermediate Super Erecta shelf installed approximately at mid-height on the unit.
