

COMMERCIAL VACUUM PACKAGING EQUIPMENT

VACMASTER®

VP215

ALFA offers a complete range of vacuum packaging equipment for commercial use, utilizing vacuum and chamber technology. Our products are distinctly superior to non-chamber, external bag sealers on the market and solve the age-old problem of how to vacuum-package liquids and liquid-rich foods successfully. Ideal for sous-vide cooking when used with VacMasters's inexpensive cook-in pouches.

Alfa will help you determine which of our machines best serves your foodservice needs.

VP540

Warranty: 1 year limited parts* & labor

**Note: Seal bars are not a warranty item, but are considered a "wear" item*

Need more information? Individual tearsheets for each machine are just an email or fax away.

VP320

VP120

To extend shelf life and reduce or eliminate freezer burn, these machines are an essential component in any successful commercial operation.

Other VacMaster models not shown are available for purchase - call for pricing and individual tearsheets

ALFA #	CHAMBER SIZE	# SEAL BARS & LENGTH	VACUUM PUMP	ELECTRICAL SPECS	SHIPPING WEIGHT	DIMENSIONS BOXED
