

INDUCTION-READY PLATES

HOW IT WORKS

- The Alluserv™ Induction-Ready Plate Activator is designed to work with Seltmann induction-ready plates.
- Exclusive **TempSense™** technology ensures accurate, consistent plate heating, and prevents plates from overheating
- Plate rim stays cool to the touch

Induction-ready plates heat in seconds, but plate rim stays cool to the touch.

PLATE LOCATOR

Alluserv Activators feature plate locators sized for Seltmann plates. See chart below for locator number.

| LOCATOR # | ACTIVATOR | FOR SELTMANN PLATE |
|-----------|-----------|--------------------|
| A00137 | Single | AIP9 (9", 23cm) |

Design Advantage

The Alluserv Induction Plate Activator system can reduce your equipment cost by up to half of induction heated base systems.

INDUCTION PELLET EQUIPMENT NEEDED (approximately \$40,000*)

- Induction bases
- Induction base charger
- Drying rack for bases
- Drying rack for domes/underliners
- Domes
- Plate bases
- Plate heater/dispenser
- China plates

INDUCTION PLATE EQUIPMENT NEEDED (approximately \$19,000*)

- Induction plate activator
- Drying rack for domes/underliners
- Domes
- Induction-ready plates

* Based on a period of 100 meals.

ALLUSERV'S PARTNER IN PORCELAIN

Model AIP9

Seltmann Weiden dinnerware is renowned for its superior design and high performance. It is lead and cadmium free, meeting strict California regulations, and it is highly scratch resistant due to its extremely hard glaze. Induction-ready plates feature a special coating on back which heats quickly when exposed to magnetic induction.

All of Seltmann Weiden's products are produced in Germany. Seltmann Weiden has been family owned since its start in 1910 and has retained its ongoing commitment to investing in state-of-the-art production technologies with a focus on exceptionally eco-friendly production.
