

413 SERIES

Premium Wood Booster Chair

Alpine Industries restaurant style booster chair is the perfect solution for those trying to enjoy meals out with their children around ages 3- 5 who can't reach the table comfortably. They are built with premium quality rubberwood to ensure durability. These boosters are built with safety, functionality, and style in mind. Available in two beautiful finishes, Espresso and Mahogany. As children's safety is our primary goal, all safety belts are already installed, and the extra nylon braiding ensures they are tear-resistant. This item comes unassembled upon receipt; however, it can be built in 15 minutes or less with all the hardware included.
