## CONSTRUCTION

We only use high quality materials, principally stainless steel for strength and durability. All our units feature a high density Ecomate insulation resulting in less energy consumption, and better temperature control.

## DESIGN

Our product design seeks functionality and cares for details. Features like full length embedded door handles, LED lights, stay open doors, coved corners or standard locks work together for customer convenience.

## PERFORMANCE

Factory engineered oversized and balanced refrigeration system with easy temperature control ensures performance and efficiency.
