WARNINGS:

- Plumbing connections must be made by a qualified service company who will comply with all available Federal, State, and Local Health, Plumbing and Safety codes.
- CMA recommends utilizing a water softening system to maintain water hardness measurements of 3.5 gpg (grains per gallon) or less. This will assure maximum results and optimum operation of the dishmachine.

Summary Specifications: Model CB

CMA Energy Miser model CB low temperature, chemical sanitizing commercial dishwasher meets UL and ETL sanitation and construction standards WITHOUT the use of BOOSTER or TANK HEATERS. The model CB is constructed entirely of stainless steel. Each unit automatically washes, rinses and sanitizes food service utensils in standard 19-3/4" x 19-3/4" racks. Unit comes standard with upper and lower stainless steel wash arms. The model CB incorporates a pump purging system that improves results by eliminating soil and chemical carryover during rinse cycle. **Note: This machine does not have built-in heaters, therefore pro-duces no steam.**

Advisory: CMA does NOT endorse "Tankless On-Demand" water heaters for use on CMA Dishmachine products. CMA DOES endorse, and highly recommends, the standard "tank" style water heaters, sized properly to handle each particular facility with their water heating requirements.
