Gain 30% More Floor Space

Compared to the Cambro Standard Adjustable Dish Caddy Model ADCS.

Compact Design with Uncompromised Capacity

Store more caddies and dishes in the same space or keep the same quantity of caddies/dishes and free up valuable space for other uses.

Smooth Maneuvering

Compact square design with 2 rigid and 2 swivel casters means easier transporting in and out of storage, up and down ramps and across carpet.

“My first thought was... how Cambro did it again by keeping the essential versatility of the configuration aspect of the dish caddy but made it smaller and amazingly easy to maneuver, making it a must for any culinary operation.”
