## Shelf Rails

Use to prevent contents from falling off shelves. Protect individual sides or ends or wrap a full shelf. Rods are made from a strong composite material that is highly durable and will never rust or corrode.

Fits shelving units 24" to 72" wide and 14" to 24" deep.

Full or three-quarter shelf kits help to streamline installations and significantly reduces carton waste.

Shelf Rail kits are available in all depths and all lengths. To see the entire selection of Full & 3/4 kits, see the Camshelving Product Specification and Price List.
