

MICROFIBER FLAT MOPS

Our 100% microfiber mops offer many advantages to today's cleaning challenges. We use the highest quality, ultra-fine, synthetic fiber that is very durable, and provides superior bacteria removal.

WHAT IS MICROFIBER?

Unlike conventional mop yarns, each strand of microfiber is wedge-shaped with sharp edges which makes it very effective for removing, absorbing and accumulating virtually any type of dirt, dust, grease or contaminant. When paired with ErgoWorx Touchless Cleaning System (See page 12), our system is an important component for a comprehensive Green Cleaning Program as per the US Green Building Council's (USGBC) LEED for Existing Buildings Rating System (LEED-ED:OM), Practice Greenhealth's Green Guide for Health Care and the Healthy Schools Campaign's Quick & Easy Guide to Green Cleaning in Schools.

laundry instructions

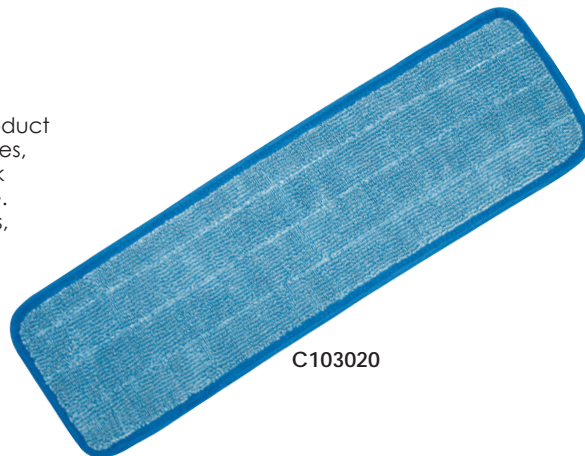

Machine wash separately, using a neutral detergent (pH ~ 7.0), avoid alkali (if alkali product is used, product must be neutralized before drying). Avoid pH levels above 9.0. Exposure to pH levels above 9.4 will damage the product. Use moderate bleach, if necessary. Wash with hot water, up to 195°F (90°C) and tumble dry, up to 195°F (90°C). Do not use fabric softeners. NOTE: Red products should be washed before initial use, to avoid bleeding on the surface to be cleaned.

LAUNDERABLE REFILLS

HUSKEE™ MICROFIBER FLAT MOPS

Looped-end construction and durable microfiber provide long product life. Made of 100% microfiber, it can be laundered hundreds of times, when cared for properly. Surged border is extremely durable. Hook and loop attachment for easy installation and removal from frame. Can be used for damp or dry mopping. Use with Microfiber Frames, found on pages 12-13.

Item #	Dimensions	Color	Case Pack
C103013	13" x 5"	Blue	12
C103018	18" x 5"	Blue	12
C103020	20" x 5"	Blue	10

BENEFITS

More Cost Effective

Cleans faster and lasts up to 6x longer than traditional mops.

Healthier

Superior bacteria removal; improves Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHP) scores and reduces hospital acquired infections. Reduces bacteria on 95% of all hard surfaces.

Greener

Significantly reduce consumption of water and chemicals; Re-usable and can be washed hundreds of times when cared for properly.

Safer

Light-weight mops reduce work strain
