

# Vegetable slicers

## MULTIGREEN

MULTIGREEN is the ever-ready ideal solution for economic preparations of buffets of freshly cut vegetables. It plays a double role in the kitchen, first providing fresh cuts for the preparation of raw vegetables, then, thanks to the cutter equipment, it chops and mixes condiments and sauces.

601150

### FEATURES

- Very easy and safe to use.
- Set of four discs adapted to the preparation of raw vegetables: grating, slicing, shredding.
- Large vegetables can be fed directly into the loading hopper; a piston presses the vegetables against the cutting discs and grids ensuring an even cut in a short amount of time.
- The loading of long shaped vegetables (carrots, courgettes, cucumbers etc.) is through the special cylindrical opening in the piston itself.
- The bowl, twin blade rotor and cover of the cutter are fitted directly onto the drive shaft in place of the "FRESH CUT" equipment.
- Speed: 1500 rpm.
- Transparent cover with magnetic safety device.
- Stainless steel bowl with a useful volume of 2,5 litres.
