## Condiment Dispensers

CCD, CCD/T, CCD6-12

### Product Information

The CCD model condiment dispensers consist of a stainless steel housing with clear, acrylic hinged cover that holds six pint-sized condiment cups. The condiment cups are removable for thorough cleaning. Condiment dispensers can be placed on the stationary portion of a sliding ice bin cover or on the bar top. The bottom of the condiment dispenser includes rubber pads to help prevent bar top scuffs.

The CCD/T model also includes a separate stainless steel tray that allows the condiment dispenser to clip to the rail of a pass-thru cocktail station tray shelf.

The CCD6-12 condiment dispenser fits into an IBA-12 or C-IBA-12 model ice bin or the bottle well of a CBA or C-CBA model combo ice bin to provide ice-chilled condiment storage. The CCD6-12 includes six pint-sized cups, two lift-off stainless steel covers, and a perforated liner insert to help lessen the amount of ice required to fill the ice bin.

CCD6-12  
Installed in the bottle  
well of a combo ice bin
