Welcome to **INFRICO FACTORY STORY!**

INFRICO is a Family owned & operated Manufacturer based out of the Southern region of Spain, a major Global Market Player for almost 35 years in the production & sales of "HIGH SPEC" Commercial Refrigeration Equipment. With our NORTH AMERICA H.Q. located in Miami FL, our products are distributed across the United States since 2011 with incredible success.

Our line is design driven, perfect for almost any type of environment, whether you work with bakeries gourmet cafés, luxury hotels & resorts, restaurants, entertainment parks, casinos, schools, airports, sport stadiums, grocery stores, or supermarkets. Part of this success comes from the strong relationships we keep building with our Customers, Dealers and Consultants throughout the country, who contribute enormously in specifying our products for multiple high-level jobs.

We carry a vast supply of parts stocked locally and have been able to establish a solid U.S. service network with access to the top authorized service agents across the country. Our equipment is stocked in Miami, FL and manufactured in Spain, under the highest international quality manufacturing standards and regulations.

Our product line is probably one of the largest ones in the industry, with an incredible diversified range of options such as Reachins, Wine coolers, Under counters, Prep Tables, Retro Refrigerators, Blast Chillers & Shock Freezers, Sushi Cases, Supermarket cases, Euro-style bakery cases, Gelato cases, Air Curtains Grab n' Go cases, and much more...

We look forward to serving you soon

Infrico USA **North America Division**

Grupo Infrico

INFRICO was established in 1986 with a clear objective: to produce the best refrigeration solutions adapted to the specific needs of each customer.

Technological vanguard, certified quality and the excellence of its products are the quarantees to support its commitment to innovation. This is what has positioned Infrico as one of leading commercial refrigeration equipment manufacturer.

The company offers a very wide range of equipment that covers everything related

to refrigeration for the Foodservice sector to include, bakery, pastry, ice cream, wine cooler equipment and more, also Supermarket Retail Equipment.

Infrico has customers around the world and a large share of the national market, as we continue the growth process and expansion throughout the world. Infrico currently has more than five hundred employees spread across 13 branches in Spain and 16 abroad.

The technical data is subject to possible variations that will be updated periodically in the product spec sheets, which are available on our website.

Sanitation

- Rounded interior corners.
- 4" Diameter caster with locks.
- Internal drain plug for pressure cleaning.

Cabinet

- Insulation with free CFC's.
- Exterior and Interior built-in AISI 304 & 430 Stainless Steel.

Doors

- Hinges built with self-closing system and stay open door mechanisim.
- Triple chamber door gasket for easy removal.
- Integrated door handles.
- Field reversible door feature available on single section uprights and all our horizontal equipment.

Control system

- High precision temperature control.
- The temperature probes are NTC type.
- Automatic defrost cycle.
- Control of the final defrost temperature.

Refrigeration system

- Removable condensing units.
- Anti-corrosion evaporators.
- Monoblock (INFRIBLOCK ®) on our top mounted equipment, for easy service, cleaning and repair.
- Expansion valve (AGB-AN Line).
- Capillary system.
- 100% Polyester coated evaporators.

100% Tested

- Helium gas chambers called "GALILEO TP", to prevent refrigerant leaks.
- Nitrogen Helium Refrigerant. Individually tested.
- Audited and certified by INTERTEK to fulfill the UL 471 and NSF-7 standards; applicable in the U.S. and Canada.

Quality assurance & continuous improvement

 Our laboratories are approved according to Council Directive DC 2004/108/CE of Electrical Safety and Electromagnetic Compatibility DC 2006/95/CE.

Customer service

INFRICO offers a 2 years parts & labor warranty for all products. Includes a 6 year compressor warranty.

Stock

 Permanent local stock in Doral FL for immediate delivery.

Production

- Flexibility in production to manufacture a single piece of equipment between 3-4 weeks.
- Deliveries nationwide between 8-10 weeks from factory on special orders.

09. ECO efficiency-DOE approved

- Infrico, continues its policy of respecting and preserving the environment certified by ISO 14001:2004.
- Compliant with all federal requirements. Some of our initiatives include waste reduction, recycling and friendly packaging solutions.
- Committed to eco-design, and reduced energy consumption.
 - CFC's free polyurethane insulation, high-pressure injected with density of 40 Kg/m³. Use of R-134a & R-404A refrigerants.
- LED lighting, reducing energy consumption by 90% compared to traditional fluorescent lights.
- Oversized Condensers & Evaporators to improve energy efficiency and performance.
- Coated Condensers & Evaporators with anticorrosion material to prevent leaks.
- Hydrocarbon R-290
- Hot gas defrost.
- Triple magnetic chamber gasket to avoid temperature loss.
- Automatic defrost system.
- High efficiency EBM fan motors.
- Doble & Triple tempered glass door with Argon gas
- -CO₂ Continuous CO2 reduction initiatives to fight Global Warming.
- Our product line is approved according DOE compliance.

Reach-in refrigerators & freezers **Specifications**

Top mounted reach-in refrigerators

Exterior

- AISI 304 stainless steel

Interior

- AISI 430 stainless steel
- Sealed interior floors and rounded cabinet corners

Shelvina

- Three plastic coated wire shelves per door with stainless steel tray slides included.

Doors

- Polyurethane insulated doors,
- Self closing doors with stay open feature
- Stainless Steel heavy-duty hinges
- Triple chamber snap in door gaskets for easy removal and cleaning,

Refrigeration

- Forced air refrigeration system, expansive valve
- Digital temperature controller with automatic defrost system
- Compact refrigeration system monoblock, INFRIBLOCK ®
- Energy-saving non-electric condensate pan

- Led lighting
- Internal drain plug for easy cleaning
- Tray slides are compatible with 18"x26" and 12"x20" sheet pans,
- Plastic coated tray divider (except IRR-AGB23 and IRR-AGB23-2)
- Field reversible doors.
- Doors locks
- Full-height door opening [22-7/8" x 58-5/8"].
- Evaporator coil coated with anticorrosion material 100% Polyester
- -100 °F ambient
- -Electronic fans
- -Hot gas defrost for low temp units

Bottom mounted reach-in refrigerators

Exterior

- AISI 430 stainless steel

Interior

- AISI 430 stainless steel
- Sealed interior floors and rounded cabinet corners

- Three plastic coated wire shelves per door with stainless steel tray slides included

Doors

- Polyurethane insulated doors - Self closing doors with stay open feature,
- Stainless Steel heavy-duty hinges
- Triple chamber snap in door gaskets for easy removal and cleaning

Refrigeration

- Forced air refrigerators and expansion valve for freezers
- Digital temperature controller with automatic defrost system
- Energy-saving non-electric condensate pan

- Led lighting
- Internal drain plug for easy cleaning
- Tray slides are compatible with 18"x26" and 12"x20" sheet pans
- Plastic coated tray divider [except IRR-AN23]
- Field reversible doors
- Doors locks
- Full-height door opening (23"x53")
- Evaporator coil coated with anti-corrosion material 100% Polyester
- 100 °F ambient
- -Electronic fans
- -Hot gas defrost for low temp units

Roll-in & roll-thru

Exterior

- AISI 304 stainless steel
- Built with removable panel for easy instalation

Interior

- AISI 304 stainless steel

Shelving

- Three plastic coated wire shelves per door with stainless steel tray slides included.

- Polyurethane insulated doors,
- Self closing doors with stay open feature
- Triple chamber snap in door seals for easy removal and cleaning

- Digital temperature controller with automatic defrost system
- Expansion valve and hot gas defrost system for low temp units (Freezer models)

- Isulated bottom side with 0,8" (1 inch) thick with ramp included
- Panel thickness 3-3/16"
- Tray slides are compatible with 18"x26" and 12"x20" sheet pans,
- Plastic coated tray divider [except IRR-AGB23 and IRR-AGB23-2]
- Full-height door opening [27-5/8" x 72-7/8"].
- Heated door frame to avoid accumulation of ice (Freezer models).
- Compact refrigeration system monoblock, INFRIBLOCK ®
- Energy-saving non-electric condensate pan
- Evaporator coil coated with anti-corrosion material 100% Polyester
- Forced air refrigeration system

Model **IRR-AGB49**

Triple chamber snap in door qasket for easy cleaning

Compact monoblock system (AGB models)

Interior features of IRR-AGB23BT

Expansion valve AGB models and AN model freezers

Top mounted Reach-In refrigerators

CHARACTERISTICS

Energy efficiency

Higher energy rating, due to optimized air circulation, R290 refrigeration and electronic fans. Producing more efficient temperature distribution.

Certifications

Infrico is audited and certified by the international organization AENOR in **ISO 9001: 2015** [Quality]; **ISO 14001:** 2015 (Environment);

OSHAS 18001: 2007 (Worker Safety and Health) and by INTERTEK in accordance with UL 471 and NSF 7.

LED lighting incorporated, reducing energy consumption between 80% and 90% compared to a traditional ligth bulb.

Compact monoblock system

Natural refrigerant R-290 GWP = 0

Expansion valve

Top mounted reach-In Solid door refrigerators

CHARACTERISTICS

Lighting

LED lighting incorporated, reducing energetic consumption between 80% and 90% respect to a traditional ligth bulb.

Certifications

Infrico is audited and certified byan international organization AENOR in **ISO 9001: 2015** (Quality); **ISO 14001:** 2015 (Environment);

OSHAS 18001: 2007 (Worker Safety and Health) and by INTERTEK in accordance with UL 471 and NSF 7.

Top mounted reach-In Glass door refrigerators

SLIM LINE AGN Series

TECHNICAL CHARACTERISTICS

Refrigeration

Hot gas defrost (BT).

Electronic fans.

Air cooled condensation system.

Forced air evaporation system.

Evaporative tray without electrical heater for a better energy class.

Refrigerant: 134 A

Doors with integrated dual sided handle and stay open hinge.

Four-chamber flat "cleanless" snap-in door gasket easy to remove.

Field revesible doors

STANDARD FEATURES

ELECTRICAL	Cord and NEMA 5-15P plug, electrical connection is 115V / 1ph / 60Hz		
REFRIGERANT R290			
SHELVING	Plastic coated reinforced wire shelves hold up 155 lb (CR Models)		
DOORS	Door built-in Thermopane double glass (Refrigerators models)		
OPTIONS Section 10 (Accessories & parts)	Stainless Steel wire shelves Stainless Steel tray divider	Additional slide kits Set of 6" legs, height adjustable from 5" to 8"

Blast chillers/shock freezers Specifications

IBC-ABT3 1S / IBC-ABT5 1L & IBC-ABT7 1L

Exterior

- AISI 304 stainless steel

Interior

- AISI 304 stainless steel
- Sealed interior floors and rounded cabinet corners

Shelvina

- Compatible with 12" x 20" sheet pans in IBC-ABT31S (3 pans) and IBC-ABT71M (7 pans)

Doors

- Polyurethane insulated doors,
- Self closing doors with stay open eature
- Stainless Steel heavy-duty hinges
- Triple chamber snap in door gaskets for easy removal and cleaning

- Stainless Steel adjustable legs (except IBC-ABT31S)

- Refrigeration
- Forced air refrigeration system, TXV vale - Digital temperature controller with automatic defrost system
- Compact refrigeration system monoblock, INFRIBLOCK ®

Digital control

- Interactive control screen & menu
- Up to 99 different customized cycles
- USB Connection

- Compliant with HACCP regulations
- Internal drain plug for easy cleaning.
- Includes a heated conical probe which is easy to use and remove
- Compatible with 18"x26" sheet pans in IBC-ABT51L (5 pans) and IBC-ABT71L [7 trays]
- Field reversible doors, except IBC-ABT31S
- Heated door frame to avoid accumulation of ice.
- Levelling feet, only
- Evaporator coil coated with anticorrosion material 100% Polyester
- -100 °F ambient

IBC-ABT101L&IBC-ABT141L/IBC-ABT201C

Exterior

- AISI 304 stainless steel
- Compliant with HACCP regulations

Interior

- AISI 304 stainless steel
- Sealed interior floors and rounded cabinet corners

- Compatible with any oven [12"x20" and 18"x26" sheet pans] only BC-ABT101L & IBC-ABT141L

- Compatible with any standar pastry speed cart or combi trolley (only IBC-ABT202C model)
- Internal drain plug for easy cleaning [only BC-ABT101L & IBC-ABT141L]
- Includes a heated conical probe which is easy to use and remove

Doors

- Polyurethane insulated doors
- Self closing doors with stay open feature
- Heavy-duty hinges with horizontal and vertical adjustment

Refrigeration

- Control panel with an easy to read screen and menu
- Manual defrost during cycles and automatic defrost during
- Evaporator coil coated with anti-corrosion material 100% Polyester

Digital control

- Interactive control screen & menu

- Triple chamber snap in door gaskets for easy removal and cleaning
- Heated door frame to avoid accumulation of ice
- Forced air refrigeration system
- Refrigerant gas R404A
- Drain pan with condensate heater (only BC-ABT101L & IBC-ABT141L)
- Blast chilling: +194°F to +37°F in less than 90 minutes
- Blast freezing: +194°F to 0°F in less than 4 hours
- Up to 99 different customized cycles
- USB Connection

Model **IBC-ABT5 1L**

Triple chamber snap in door gasket for easy cleaning

Self-closing doors with stay open feature

Rounded corners & sealed interior floor, NSF7, including drain plug for cleaning

Touch screen Control panel with an easy to read screen and menu

And also

USB Connection HACCP trazability

AISI 304 Stainless Steel exterior & interior cabinet construction

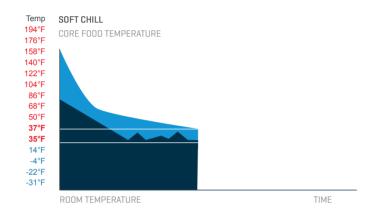

American compressor TECUMSEH, 115 V 60Hz.

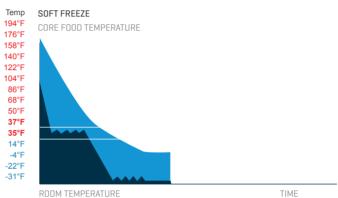

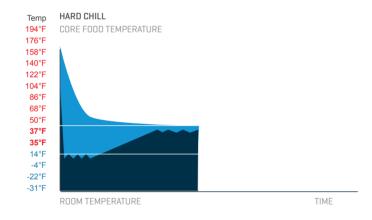

How blast chillers work & cycle functions

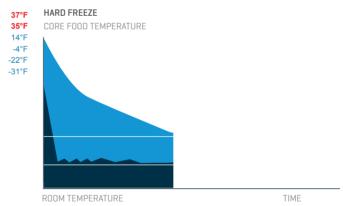

How blast chillers work

Blast chillers quickly reduce the core temperature of the products, whether they are cooked or fresh, conserving their fresh texture, hygiene and quality, while reducing the risk of generating bacteria.

The traditional methods of storing cooked food has always been to leave it to cool naturally until it reaches a suitable temperature to store in the refrigerator.

During the period when the core temperature falls from 149°F to 50°F, food will lose a lot of its natural characteristics, such as moisture, consistency, aroma and color, furthermore, this is when bacteria begins to develop.

INFRICO'S BLAST CHILLERS are designed to reduce the time period for this critical change in temperature.

Blast chillers/ shock freezers

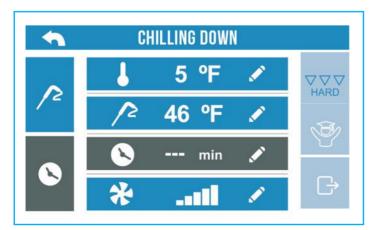

Blast chilling

Blast chilling allows cooked foods to maintain all of its original characteristics by quickly bringing the temperature down from 194°F to 37°F in less than 90 minutes and maintaining temperature between 32°F and 41°F, conserving the quality, aroma, color and consistency of the food.

Shock freezing

The blast freezing cycle quickly freezes cooked food, transforming the liquid within the food to micro-crystals of ice, without damaging the cellular structure of the food. Internal food temperature falls from 158 °F to -0,4°F in less than 270 minutes.

How blast chillers work & cycle functions

MAIN FEATURES

Stylish design, flush mounted, user-friendly.

Option personalized cycles with 3 regulation phases.

User interface with IP65 protection.

Management of blast chilling and freezing cycles, both temperature and time controlled, with hard/soft and intensity management functions.

Runs a test to check that the needle probe is correctly inserted (including multipoint probes).

Real-time graphic display for blast chilling/freezing cycle in progress.

BENEFITS

Heated probe.

Management of special cycles (fish sanitation, ice cream hardening, etc.)

Possibility to personalize 99 programs

CJ

Characteristics and applications

High quality

High quality meals at any time, pleasing both the customer and the kitchen chef.

Controlled purchases

Food purchases can be made at any time, making cost savings on seasonal food.

Food safety

Food safety on all your dishes as the chilling process fully conforms to the HACCP regulations.

Saving time

Save by up to 30% of time by preparing meals in batches.

Less waste

Less waste as blast chilled and frozen dishes can be stored for longer periods of time.

Better organization

Better organization in the kitchen, as food can be prepared independently of customer demand.

Less weight loss

Less product weight loss as the humidity and moisture of the food doesn't evaporate.

Blast chiller

Compatible with top main manufacturers.

USB connection

Upload / Download of the configuration parameters. Upload / Download of the programs.

Download of the information relative to the HACCP alarms.

Wide selection of menus

A wider choice of quality dishes without any health risks.

Blast chillers/shock freezer

ABT Series

CHARACTERISTICS

Structure

AISI 304 Stainless Steel. Compatible with any ovens.

Leak detection system

All the condensing units are 100% tested, in a Helium chamber for the detection of gas leakage.

Higher precision in managing temperature settings. Greater ability to adjust temperature ranges as per'end user's

Sandwich salad prep tables & Megatop

Exterior

- AISI 430 stainless steel

Interior

- AISI 430 stainless steel

Insulation

- CFC-Free polyurethane insulation, entire cabinet structure is foamed-in place using a high density polyurethane insulation

- [2] Two plastic coated wire shelves per section.

- Polyurethane insulated doors
- Self closing doors with stay open feature
- Stainless Steel heavy-duty hinges
- Triple chamber snap in door gaskets for easy removal and cleaning
- Field reversible doors

- Temperature regulated by thermostatic control
- Energy-saving non-electric condensate pan
- Evaporator coil coated with anti-corrosion material 100% Polyester

- AISI 304 stainless steel top
- Low GWP & Zero ODP effect
- Door opening WxH: 23-1/4"x21-7/8" [UC27P]; 19-5/8"x21-7/8" [UC48P/ UC72P); 25-5/8"x217/8" (UC60P)
- Door opening WxH: 23-1/4"x21-7/8" (UC27PMT); 19-5/8"x21-7/8" [UC48PMT/UC72PMT]; 25-5/8"x21-7/8" [UC60PMT]
- Forced air refrigeration system

- AISI 304 stainless steel top

- Low GWP & Zero ODP effect

- Front-breathing refrigeration system

- Sealed interior floors and rounded cabinet corners

- Refrigerant gas R290

Pizza prep tables

- Plastic coated wire shelves, adjustable height and easy removal

Insulation

- Free CFC's high density (40kg/m3) polyurethane insulation with low GWP & zero ODP effect

- Doors with double glass. [6-10-4]
- Integrated lock
- Easy removal gasket
- Integrated handle doors

Refrigeration

- Forced air refrigeration system
- Evaporator coil coated with anti-corrosion material 100% Polyester
- Evaporative tray

Model **ERV 36GD**

Protected digital controller

Removable top to fit 34" counter height

Standard lock

Back bar coolers Glass doors

ERV Series

CHARACTERISTICS

Structure

Stainless Steel AISI 430. Interior LED lighting (GD).

Insulation by free CFC's polyurethane, foam high-pressure injected with density 40 Kg/m3 GWP.

Certifications

Infrico is audited and certified by the international organization INTERTEK in accordance with UL 471 and NSF 7.

Energy efficiency

Higher energy rating, due to optimized air circulation, R290 refrigeration and electronic fans. Producing more efficient temperature distribution.

Wine cellars **Specifications**

Wine cellars

Exterior

- 100% Pine wood exterior (Top, Front, Sides)
- Cherry color standard

Insulation

- CFC-Free polyurethane insulation, entire cabinet structure is foamed-in place using a high density polyurethane insulation
- Low GWP & Zero ODP effect

Interior

- Pre-painted steel interior
- LED Lighting

Shelving

- [7] Pre-painted steel wooden front shelves

Doors

- Built-in thermopane double glass
- Triple chamber snap in door gaskets for easy removal and cleaning
- Door locks

Refrigeration

- Digital temperature controller with automatic defrost system
- Evaporator coil coated with anticorrosion material 100% Polyester
- Forced air refrigeration system
- Refrigerant gas R134a
- Recomended temperature: Red wine, 50°F to 64°F / White, Rosé & Brut: 39°F to 46°F
- Split wall for dual temp configuration (MX model)

Electrical

- Cord and NEMA 5-15P plug
- Electrical connection is 115V / 1ph / 60Hz.

Vintage refrigerators

Exterior

- 100% Pine wood exterior [Top, Front, Sides]
- Cherry color standard

- -AISI 430 stainless steel.
- LED Interior lighting.

Insulation

- Free CFC's high density (40kg/m3) polyurethane insulation with low GWP & zero ODP effect.

Shelving

- Stainless steel with wooden pan stop shelves, adjustable height and easy removal. (wooden removable).

- Wooden Doors with double glass [6-15-5].
- Easy removal triple chamber gasket.
- Door locks.

Refrigeration

- Forced air refrigeration system.
- Evaporator coil coated with anti-corrosion material 100% Polyester.
- Control of the final defrost temperature.

Electrical

- Cord and NEMA 5-15P plug
- Electrical connection is 115V / 1ph / 60Hz.

Model EVV200MX

Cherry color standard.

Each cabinet section has its own refrigeration system (MX)

These models have been designed for the exposure and sale of wine bottles, and represents the best solution for the wine service at the best temperature.

Structure

100 % solid pine wood.

Integrated lock.

7 shelves with wooden front per door, height adjustable and easily replaceable.

Lighting

LED lighting incorporated, reducing energy energetic consumption between 80% and 90% compared respect to a traditional ligth bulb.

Doors

Doors are equipped with hinges for automatic return and permanent pressure during closing.

Double panel glass (4-8-4), low emissive hardened glass.

Refrigeration

Temperature and automatic defrost regulated by

a digital controller.

Evaporator treated with anti-corrosion polyester Epoxi. Ventilated condensation system.

Ventilated evaporation system.

Recommended temperature for red wine is

10°C to 18°C / white, rosé and brut is 4°C to 8°C.

Pastry display cases Straight glass

VBR AMBAR PR Series

CHARACTERISTICS

Refrigeration

- -Forced air refrigeration system.
- Case engineered to operative at 75°F and 55% relativy humidity.
- -This product is designed to operte at the following store condition 75° and 55% R.H
- -This display refrigerator is not for the display potentially hazardous foods.

Certifications

Infrico is audited and certified by an international organization AENOR in ISO 9001: 2015 (Quality): ISO 14001: 2015 (Environment);

OSHAS 18001: 2007 (Worker Safety and Health) and by INTERTEK in accordance with UL 471 and NSF 7.

OPTIONAL DECORATION

RAL 5015 Blue

Pastry display cases Straight glass

VBR FG Series

Pastry display cases Straight glass

CHARACTERISTICS

Control

Higher precision in managing temperature settings. Greater ability to adjust of temperature ranges as per the end user's requirement.

Leak detection system

All the condensing units are 100% tested, in a Helium chamber for the detection of gas leakage.

Certifications

Infrico is audited and certified by an international organization AENOR in ISO 9001: 2015 (Quality); ISO 14001: 2015 (Environment);

OSHAS 18001: 2007 (Worker Safety and Health) and by INTERTEK in accordance with UL 471 and NSF 7.

Pastry display cases Straight glass

VBR FG Series

CHARACTERISTICS

Structure

AISI 304 Series Stainless Steel.

AISI 304 Series Stainless Steel upper worktop.

AISI 304 Series Stainless Steel exposition surface area.

Tempered glass front hinged.

Double sliding rear doors.

Profiles in anodized aluminium.

Refrigeration system

Ventilated Condensation system.

Forced air system.

Temperature and defrost regulated by a digital controller.

Lighting

LED lighting incorporated, reducing energy energetic consumption between 80% and 90% compared respect to a traditional ligth bulb.

IDC-VBR12FG

EACH SHELF HOLDS UP TO

115V / 1 ph / 60 Hz.

Gelato display cases

VAR Series

Gelato forced system

Exterior

- White compac quartz worktop
- Tilt forward frontal tempered glass system
- ABS thermoformed decoration, White standard decoration
- Built-in casters and levelling feet
- Pull down night curtain on the back

Interior

- AISI 304 Stainless steel exhibition area
- LED lighting in the back and front
- Case is compatible with standard 5 Liter Gelato Pans [13-1/8"x6-1/2"x5-7/8"], pans included

Refrigeration

- Digital temperature controller with automatic hot gas defrost system
- Stainless steel evaporative pan
- Forced air refrigeration system
- Refrigerant gas R404A
- Case engineered to operate at 75°F and 55% relative humidity
- Hot gas defrost

Electrical

- Cord and NEMA L14-30P plug,
- Electrical connections are 230V (Compressor) and 115V (Digital Control)

- Customizable decoration for lower front and side panels
- Dry case, Please consult with factory for pricing

Ice-cream gravity system

Exterior

- AISI 304 Stainless Steel worktop
- Flat tempered security glass system
- Enamelled steel base
- AISI 304 Stainless Steel lower part decoration
- LED lighting frontal decoration

Interior

- Enameled steel plate
- LED lighting upper profile

Refrigeration

- Digital temperature controller with automatic hot gas defrost system
- Evaporator coil coated with anti-corrosion material 100% polyester
- Refrigerant gas R404A
- Case engineered to operate at 75°F and 55% relative humidity

Electrical

- Cord and NEMA 5-15P plug
- Electrical connection is 115V/ 1ph / 60 Hz

Options

- Customizable decoration for lower front and side panels. Please consult with factory for pricing

* Infrico

FOR ORIGINAL FACTORY PARTS & AUTHORIZED SERVICE: 1-855-340-4637

Our technical and customer service team is focused on providing you with the care, knowledge and support you will need with the repair and delivery of spare parts.

www.infrico.us

Infrico USA Limited warranty

2022 INFRICO USA LIMITED WARRANTY INFRICO USA

(further on stated as "INFRICO") warrants to the original purchaser of every new INFRICO refrigerated unit, the cabinet and all parts thereof. to be free from defects in material or workmanship, under normal and proper use and maintenance service as specific by INFRICO and upon proper installation and start-up in accordance with the instruction packet supplied with each INFRICO unit. INFRICO's obligation under this warranty is limited to the following conditions upon each date of invoice:

PartsTw	o (2) years
Labor Tw	o (2) years
CompressorSix	(6) years

All parts covered under this specific above stated warranty that are determined as failures by INFRICO, are limited to the repair or replacement, including labor charges of defective parts or assemblies.

WARRANTY CLAIM PROCEDURE

All claims for labor or parts must be made directly through INFRICO. All claims should include model number of the unit, the serial number of the cabinet, proof of purchase, and all pertinent information supporting the existence of the alleged defect. Warranty starts the day of shipment.

Based on the reported case, INFRICO will program the service attention either by sending an authorized technician to the place indicated by the Customer in order to solve the situation or will send the necessary spare parts for its repair.

This contract does not apply outside the limits of the USA and CANADA. Nor does it apply to any part which has been subject to misuse, neglect, alteration, accident or to any damage caused by transportation, flood, fire, or the acts of God. This contract is not effective unless the INFRICO Warranty Claim Card, furnished to the distributor, is properly filled out and mailed to service@infrico.com within 24 HOURS from the date of delivery. The term "Original Purchaser" as used herein shall be deemed to refer to that person, firm, association, or company for whom the refrigeration unit refers to herein is originally installed.

WHAT IS NOT COVERED BY THIS WARRANTY

INFRICO's sole obligation under this warranty is limited to either repair or replacement of parts, subject to the additional limitations below. This warranty neither assumes nor authorizes any person to assume obligations other than those expressly covered by this warranty.

No consequential damages:

INFRICO is not responsible for economic loss; profit loss or special indirect or consequential damages, including without limitation, losses or damages arising from food or product spoilage claims whether or not on account of refrigeration failure.

Warranty is not transferable:

This warranty is not assignable and applies only in favor of the original purchaser/user to whom delivered. Any such assignment or transfer shall void the warranties herein made and shall void all warranties. express or implied, including any warranty of merchantability or fitness for a particular purpose.

Improper use:

INFRICO assumes no liability for parts or labor coverage for component failure or other damages resulting from improper usage or installation or failure to clean and/or maintain product as set forth in the warranty packet provided with the unit.

Alteration, neglect, abuse, misuse, accident, damage during transit or installation, fire, flood, acts of God:

INFRICO is not responsible for the repair or replacement of any parts that INFRICO determines have been subjected after the date of manufacture to alteration, neglect, abuse, misuse, accident, damage during transit or installation, fire, flood, act of God or improper electrical connections. INFRICO is not responsible for the repair or replacement of failed or damaged components resulting from electrical power failure, the use of extension cords, low voltage, or voltage drops to the unit.

No implied warranty of merchantability or fitness for a particular purpose:

3There aren't any other warranties expressed, implied or statutory, except the warranties as described above. These warranties are exclusive and in lieu of all other warranties, including implied warranty and merchantability or fitness for a particular purpose. There are no warranties which extend beyond the description on the face hereof.

Outside USA & CANADA:

This warranty does not apply to, and INFRICO is not responsible for, any warranty claims made on products sold or used outside the United States of America and Canada.
