

POLARplate™

ANSWERING THE CALL FOR **EXTRA COLD** BEER

Innovative In-Line Cooling Technology

POLARplate™ technology uses existing glycol cooling lines to reduce the pour temperature.

- Self-contained
- Easy in-line installation
- No electricity required
- Install in existing long draw systems
- Space-saving under counter installation

PART NO.	PRODUCTS	DIMENSIONS
PP-1	1	12-1/2"L x 5-3/4"W x 5-1/2"D

POLARplate™ is designed to lower the pour temperature at the point of dispense.
For maximum results, keg beer should be kept stored at 36 – 40° F.
