

# CUTTING BOARD

## Synthetic Rubber Cutting Boards

The Omcan synthetic rubber cutting boards offer the best solution for cutting meat, poultry, fresh fruits, and vegetables while offering minimal risk of contamination. The non-porous and non-absorbent rubber surface makes it easy on any knives. Unlike traditional wood cutting boards, these synthetic cutting boards will not crack, chip, splinter, swell, absorb liquids, retain odors, and offer a more sanitary alternative.

- Ideal for meat, poultry, seafood, dairy, fruits, and vegetables
- Non-porous and non-absorbent surface
- Resist cuts, scratches, and marring
- Crack and warp-resistant
- Will not dull knives
- Non-slip design
- FDA and NSF approved
- Easy to clean
