

AVANT GUARDE™ 360°

Any Surface. Any Size. Any Budget.

Avant Guardé™ 360° has been designed to make adding safety shields even easier. With a special 3M adhesive, you can place the shield brackets on any size surface and adjust coverage as needed. Simply slide in the lightweight polycarbonate panels, no tools required. Add additional panels for extended seating arrangements with our patented Cross Connector. Remove easily with no glue residue or surface damage.

This line is perfect for projects that require a larger quantity of shields and where flexibility and budget are concerns.
