Built-in 24" wide dual tap beer dispenser with panel-ready door and removable tap system for non-permanent installation

Highlights:

Innovative Floating Tap lets you create a complete undercounter kegerator without modifying your countertop

Easy-to-install + removable tap system allows you to change your space as needed

Built-in kegerator for undercounter installation

Product Features:

24" Wide Built-In Floating Tap Beer Dispenser	Dual tap kegerator with a remote tapping system that includes everything you need to pour draft beer without modifying your countertop
Patent pending commitment-free design	Non-permanent draft tower is separated from the actual kegerator and designed for temporary installation on counter surfaces, allowing you to remove as needed
Built-in capable	Designed for installation under the counter
No drilling needed	Tower is connected to the removable tap kit that does not need to be permanently attached to your countertop
Panel-ready door	Integrated stainless steel door frame allows you to mount full overlay panels over the door to create a custom look that can blend into cabinetry with no exposed frame (panel size: 23 5/16" W x 28 1/4" H and at least 3/4" thick; maximum weight: 10 lbs.)
Dual tap system	Twin draft tower allows you to serve from two 1/6 (sixtel) sized kegs
Easy installation	No tools or equipment needed for fast setup and easy removal
Convertible to a refrigerator	Includes a tap hole cover, glass shelves, and a scalloped steel bottle rack to all you to convert the kegerator into a traditional all-refrigerator

Fits under standard counters Floating tap kit requires 2 1/4" between the top of the kegerator and bottom of the counter in order to fit the keg's tubing
