

# SPR314LOS

24.75" x 18.88" x 17" (H x W x D)

Commercially approved outdoor countertop beverage cooler designed for the display and refrigeration of beverages or sealed food, with reversible stainless steel trimmed glass door, black cabinet, and front lock

### Highlights:

- Perfect as a countertop beverage center in outdoor restaurants and serving areas
- Weatherproof construction for safe use in the outdoors
- Commercially approved to NSF-7 standards

### Product Features:

|                                 |                                                                                                                |
|---------------------------------|----------------------------------------------------------------------------------------------------------------|
| Commercially approved           | ETL-S listed to NSF-7 commercial standards and meets UL-471                                                    |
| Weatherproof design             | Sealed system ensures safe use in outdoor settings                                                             |
| Countertop size                 | Less than 19" wide and just 17" deep for easy placement in outdoor bars and restaurants                        |
| Double pane tempered glass door | Heat-safe view for full visibility, with stainless steel trim for an attractive look                           |
| User-reversible door swing      | Door can be reversed to accommodate any setup                                                                  |
| Professional handle             | Brushed stainless steel finish suits any setting                                                               |
| Factory installed lock          | Keyed lock offers added security (2 keys included)                                                             |
| Automatic defrost               | No-frost convenience for reduced user maintenance                                                              |
| Interior LED light              | Automatically illuminates when the door is open to provide an attractive and efficient view of stored contents |
