ENAMELWARE COLLECTION™

CARE & USE INSTRUCTIONS

Enamelware is a time-honored traditional serving vessel that has been used for centuries in many ways. Made from Vitreous Porcelain Enamel Coated Steel, a good quality enamelware product can last for years under the right conditions and cared for correctly. Just like any other porcelain piece in the market, it is not chip resistant and can become worn over the years. The steel substrate of the products is incredibly strong; however the porcelain coating is susceptible to chipping if handled roughly or repeatedly dropped on a hard surface.

TO EXTEND THE
