Catalog.
Cooking systems and accessories.

Warranty explanations and notes

We reserve the right to make technical changes in the interest of progress as well as to modify prices and item numbers.

The two year warranty on new RATIONAL units is effective beginning on the invoice date, or on the documented date of installation. Evidence of the installation date must be provided in the form of the installation invoice or through written confirmation on the part of a dealer or distribution partner. The terms and conditions of the RATIONAL warranty declaration apply. We would be glad to supply detailed information about our range of special models and other individual equipment options.

For more information, visit rational-online.com, call us at 888-320-7274, or email us at info@rational-online.us

`48h` Guaranteed in stock item. Available to ship within 48 hours (see terms + conditions). Only available for standard configurations.
`so` Special order items.

ENERGY STAR available for 6-half size and 6-full size cooking systems (electric and gas), as well as on 10-half size cooking systems (electric).

Options - iCombi Pro and iCombi Classic

iCareSystem AutoDose
Integrated autonomous cleaning and storage system for iCombi Pro tabletop units.
With RATIONAL Active Green and Care cartridges, users can load once and then clean over and over again, without coming into contact with cleaning and care products. They allow more efficient or even completely autonomous cleaning - no manual intervention necessary.

	XS	6-half size	10-half size	6-full size	10-full size	20-half size	20-full size
iCombi Pro	–	o	o	o	o	–	–
iCombi Classic	–	–	–	–	–	–	–

Cooking cabinet door with left-side hinges - tabletop units
Tabletop units can be ordered with the door hinges on the left in order to facilitate cooking system access in certain kitchen situations.

iCombi Pro	o	o	o	o	o	–	–
iCombi Classic	–	o	o	o	o	–	–
Mobile oven rack package for tabletop units
The hinging racks are replaced with a mobile rack and the corresponding run-in rail. Suitable transport trolleys to allow safe, convenient loading and unloading of your cooking system can be found on page [22] and page [25].
Features:
› Mobile rack suitable for GN accessories (various mobile racks are available with different numbers of racks)
› Run-in rail, standard, for transport trolleys - tabletop units

	XS	6-half size	10-half size	6-full size	10-full size	20-half size	20-full size

Mobile oven rack package for Combi-Duo
The hinging racks are replaced with a mobile rack and the corresponding run-in rail. Suitable transport trolleys to allow safe, convenient loading and unloading of your cooking system can be found on page [14], page [22], page [16] and page [25].
Features: (to be configured for each cooking system)
› Mobile rack suitable for GN accessories (various mobile racks are available with different numbers of racks)
› Combi-Duo run-in rail for Combi-Duo transport trolley

	XS	6-half size	10-half size	6-full size	10-full size	20-half size	20-full size
iCombi Pro	–	o	o	o	o	–	–
iCombi Classic	–	o	o	o	o	–	–

Integrated fat drain
Dripping fat is automatically and reliably diverted out of the cooking cabinet and into special fat collection containers. Using this option with cooking systems of size 6-half size, 10-half size, 6-full size, 10-full size requires the use of Stand II, Stand IV or a leveling kit.
Features:
› Basic components: Fat drip pan, pipes, and collection container
› Information on specific components is available in the Fact File: Integrated fat drain

	XS	6-half size	10-half size	6-full size	10-full size	20-half size	20-full size

Accessories for integrated fat drain

60.73.309	Transport trolley for containers - integrated fat drain system (Combi-Duo and floor units)

Options - iCombi Pro and iCombi Classic

MarineLine for electric units
Allows efficient, safe operation of your cooking system on ships, even on rough seas.
Features:
› Tabletop units (Sizes XS, 6-half size, 10-half size, 6-full size, 10-full size) can be screwed to securable stands, preventing them from tipping and slipping. The available stands are listed on page [18], page [20] and page [24]
› Stainless steel feet and an additional anchoring kit allow floor units (Sizes 20-half size, 20-full size) to be screwed or welded in place, securing them against tipping and slipping
› Freely adjustable door stop to dampen movement when opening and closing door, or to secure door in open position
› Specially designed hinging racks and mobile oven racks secure cooking accessories against accidentally slipping out while being used
› Compliant with USPHS hygiene requirements
› Certified by Germanischer Lloyd

SecurityLine
Specific security elements protect the cooking system against deliberate vandalism and prevent it from being used to harm people. Only available on cooking systems with right-side door hinges.
Features:
› Lockable control panel
› Lockable cooking cabinet door with integrated stainless steel grille on security model
› Mobile oven rack with retractable handle for sizes 20-half size and 20-full size
› Lockable hand shower and care drawer for sizes 20-half size and 20-full size
› Opening mechanism in cooking cabinet (floor models)
› Core temperature probe is made with the use of flexible metal
› 20 full size cart has 12 L Rails with distance of 4 3/8" (112 mm)

iCombi care products

Active Green cleaner tabs for iCombi Pro and iCombi Classic
The new, highly effective, phosphate- and phosphorous-free recipe cuts cleaning chemical requirements by up to 50%.

| 56.01.535 | Active Green cleaner tabs, 150x **48h** |

Cleaner tabs for SelfCookingCenter and CombiMaster Plus (from 05/2017 onward)
Cleaner tabs with high-intensity active ingredients complex for reliable, high-performance cleaning.

| 56.00.210A | Cleaner tabs, 100x |

Care tabs for iCombi Pro, iCombi Classic and SelfCookingCenter with Efficient CareControl
Care substances provide active protection against limescale buildup in the cooking cabinet and the steam generator. Safe operation without water softeners or expensive, time-consuming manual descaling.

| 56.00.562 | Care tabs, 150x **48h** |

Rinse aid tabs for all SelfCookingCenter models without Efficient CareControl and CombiMaster Plus (from 05/2017 onward)
Active protection and extended product life thanks to highly effective care substances. The cooking cabinet is left hygienically clean and sparkling.

| 56.00.211 | Rinse aid tabs, 50x |

Active Green cleaner cartridges for iCombi Pro with iCareSystem AutoDose option
Active Green cleaner cartridges for the iCareSystem AutoDose combine all the familiar benefits of the Active Green cleaner tab with an integrated storage function, which enables completely autonomous cleaning and care of the iCombi Pro.

| 56.01.912 | Active Green cleaner cartridges/6 cartridges per box |

Care cartridges for iCombi Pro with iCareSystem AutoDose option
Care cartridges for the iCareSystem AutoDose combine all the familiar benefits of the Care tab with an integrated storage function, which enables completely autonomous cleaning and care of the iCombi Pro.

| 56.01.914 | Care Cartridges/6 cartridges per box |
Liquid detergent for all CombiMaster and ClimaPlus Combi models

| 9006.0153 | Grill cleaner for stubborn dirt, 2.6 gal (10 l) |
| 9006.0137 | Rinse aid, 2.6 gal (10 l) (only for ClimaPlus Combi with CleanJet) |

Descaler, descaler foot pump
Special care products for effective steam generator cleaning.

| 6006.0110US | Descaler, 4 x 1 gal |
| 6004.0203 | Foot pump for descaling the steam generator |

Hand spray gun
Integrated pump mechanism for especially easy handling.

| 6004.0100 | Hand spray gun for manual cleaning |

Accessories size XS

Stand XS
Elevates by 5 7/8 in (150 mm) to 7 1/2 in (190 mm) for installation on low work surfaces or compensation of slightly uneven work surfaces; allows fixed tabletop installation (MarineLine). Open on all sides.
Dimensions W | D | H: 24 3/4 | 17 1/4 | 5 7/8 in (629 | 438 | 148 mm)

|	
60.31.029	Standard

Stand I
Open on all sides.

60.31.018	Standard, dimensions W	D	H: 25 1/8	22 1/8	36 5/8 in (639 | 563 | 931 mm) **48h**
60.31.169	With casters, dimensions W	D	H: 26 1/8	25 1/4	36 7/8 in (663 | 641 | 938 mm)

Stand II
8 sets of support rails with two storage compartments and intermediate level. Open on two sides, with side walls.

60.31.044	Standard, dimensions W	D	H: 25 1/8	22 1/8	36 3/4 in (639 | 563 | 932 mm)
60.31.057	With anchoring (MarineLine), dimensions W	D	H: 27 1/8	24 1/8	36 3/4 in (689 | 613 | 932 mm)
Wall mount
Allows space-saving wall mounting (anchoring materials not included). Anchors and anchoring materials should be chosen in consultation with an architect/structural engineer and the building owner.

60.30.968	Wall mount XS

UltraVent
Recirculating hood to capture and divert steam. No external connection necessary.
1 ph 120 V electrical connection, dimensions W | D | H: 25 3/4 | 22 3/4 | 9 1/2 in (657 | 580 | 240 mm)

60.74.254	Size XS

UltraVent Plus
Recirculating hood to capture and divert steam. Special filter technology reduces bothersome smoke. No external connection necessary.
1 ph 120 V electrical connection, dimensions W | D | H: 25 3/4 | 22 3/4 | 12 7/8 in (657 | 580 | 329 mm)

60.74.407	Size XS

Hinging rack

60.74.331	7 racks (fit 1/2 sheet pans and GN containers) standard with XS models
60.73.724	11 racks (fit GN containers only)
60.74.449	Marine version (with load securing)

Accessories size XS

Integration kit

For proper integration of size XS units, incl. UltraVent XS or UltraVent Plus XS, into a wall.

60.74.285	UltraVent XS including side trim and lower vent.
60.74.408	UltraVent Plus XS including side trim and lower vent.

Heat shield for side panel

Retrofitting a heat shield allows you to place a radiant heat source (e.g. grill) near the side panel.

60.74.182	Left heat shield, size XS (W 2 1/4 in (58 mm))

Condensation breaker

Accelerates the expulsion of steam and other vapors from the vent pipe.

60.74.037	Size XS (H 17 1/4 in (438 mm))

RATIONAL USB data storage device

42.00.162	USB 3.0 stick for cooking programs and HACCP data

Accessories size 6-half size and 10-half size

Leveling kit
Compensates elevation differences on floor or tabletop assembly. Height can be adjusted by as much as 3/4 in (20 mm).

60.74.795	Leveling kit sizes 6-half size, 10-half size, dimensions W | D | H: 33 1/2 | 24 1/8 | 1 3/8 in (850 | 614 | 34 mm)
60.76.846	Leveling kit for mountable (MarineLine) size 6-half size, 10-half size, dimensions W | D | H: 34 5/8 | 24 1/8 | 1 3/8 in (881 | 614 | 34 mm)

Mobile floor installation kit
Kit with height-adjustable rollers. Stepless height adjustment by up to 3/4 in (20 mm).

60.31.622	Sizes 6-half size, 10-half size, dimensions W | D | H: 33 3/8 | 30 3/8 | 3 3/8 in (848 | 773 | 85 mm) `48h`

Table extension
For installation atop a 27 1/2 in (700 mm) deep work surface.

|	
60.11.655	Sizes 6-half size, 10-half size, dimensions W | D | H: 33 | 3 7/8 | 1/8 in (840 | 100 | 2 mm)

Base with feet
The base with feet allows elevated installation of iCombi 6-half size and 10-half size cooking systems. Height can be adjusted by as much as 3/4 in (20 mm). For table-top installation on work surfaces with min. 27 1/2 in (700 mm) depth.

60.31.668	Sizes 6-half size, 10-half size, dimensions W | D | H: 34 1/4 | 25 | 6 in (870 | 635 | 152 mm)

Unit height extension for tabletop setup
For tabletop installation on work surfaces with min. 27 1/2 in (700 mm) depth. Open on all sides.

60.31.099	Sizes 6-half size, 10-half size, dimensions W | D | H: 34 7/8 | 26 1/8 | 5 7/8 in (885 | 663 | 150 mm)
Low stand II
3 pairs of supporting rails. Open on two sides, with side walls.

60.31.206	Standard, dimensions W | D | H: 33 7/8 | 27 5/8 | 17 1/2 in (860 | 703 | 445 mm)

Stand I
Open on all sides.

60.31.089	Standard, dimensions W | D | H: 33 7/8 | 27 | 27 1/2 in (860 | 685 | 699 mm) `48h`
60.31.095	With height-adjustable casters, dimensions W | D | H: 34 3/4 | 30 | 27 1/2 in (884 | 763 | 699 mm) `48h`
60.31.096	With anchoring (MarineLine), dimensions W | D | H: 34 7/8 | 28 | 27 1/2 in (885 | 710 | 699 mm)

Stand II
14 pairs of supporting rails. Open on two sides, with side walls.

60.31.086	Standard, dimensions W | D | H: 33 7/8 | 27 5/8 | 27 1/2 in (860 | 703 | 699 mm) `48h`
60.31.103	With height-adjustable casters, dimensions W | D | H: 34 3/4 | 30 1/4 | 27 1/2 in (884 | 769 | 699 mm) `48h`
60.31.110	With anchoring (MarineLine), dimensions W | D | H: 34 7/8 | 28 1/4 | 27 1/2 in (885 | 716 | 699 mm)

Accessories size 6-half size and 10-half size

Stand II MobilityLine

14 pairs of supporting rails. Open on two sides, with side walls, reinforced sides. Four stainless steel casters, diameter 7 3/4 in (200 mm). Overlay with lateral impact protection supports.

60.31.164	MobilityLine, dimensions W | D | H: 47 1/4 | 35 1/4 | 31 1/8 in (1199 | 894 | 789 mm)

Stand III

14 pairs of supporting rails. Open on one side, with side walls, back wall and top cover.

60.31.091	Standard, dimensions W | D | H: 33 7/8 | 27 5/8 | 27 1/2 in (860 | 703 | 699 mm)
60.31.105	With height-adjustable casters, dimensions W | D | H: 34 3/4 | 30 1/4 | 27 1/2 in (884 | 769 | 699 mm)
60.31.112	With anchoring (MarineLine), dimensions W | D | H: 34 7/8 | 28 1/4 | 27 1/2 in (885 | 716 | 699 mm)

Stand III version UltraVent, size 6-half size

20 pairs of supporting rails. Open on one side, with side walls, back wall and top cover. Elevated for installation with a recirculating hood.

60.31.214	Standard, dimensions W | D | H: 33 7/8 | 27 5/8 | 37 1/4 in (860 | 703 | 945 mm)
60.31.215	With height-adjustable casters, dimensions W | D | H: 34 3/4 | 30 1/4 | 37 1/4 in (884 | 769 | 945 mm)

Stand IV

14 pairs of supporting rails. Closed on all sides, with 2 hinged doors.

60.31.093	Standard, dimensions W | D | H: 33 7/8 | 27 5/8 | 27 1/2 in (860 | 703 | 699 mm)
60.31.107	With height-adjustable casters, dimensions W | D | H: 34 3/4 | 30 1/4 | 27 1/2 in (884 | 769 | 699 mm)
60.31.114	With anchoring (MarineLine), dimensions W | D | H: 34 7/8 | 28 1/4 | 27 1/2 in (885 | 716 | 699 mm)

UltraVent (only available for electric cooking systems)

Recirculating hood to capture and divert steam. No external connection necessary.
1 ph 120 V electrical connection, dimensions W \| D \| H: 33 1/2 \| 34 3/4 \| 12 1/4 in (854 \| 885 \| 313 mm)

60.76.179	Sizes 6-half size, 10-half size

UltraVent Plus (only available for electric cooking systems)

Recirculating hood to capture and divert steam. Special filter technology reduces bothersome smoke. No external connection necessary.
1 ph 120 V electrical connection, dimensions W \| D \| H: 33 1/2 \| 34 3/4 \| 15 3/4 in (854 \| 885 \| 403 mm)

60.76.177	Sizes 6-half size, 10-half size

Hinging rack size 6-half size

60.61.618	Standard, 6 racks (rail spacing 2 5/8 in (68 mm))
60.61.624	7 racks (rail spacing 2 5/8 in (68 mm))
60.61.615	5 racks (rail spacing 3 3/8 in (85 mm))
60.61.672	Marine version (USPHS), 6 racks (with load securing)

Accessories size 6-half size and 10-half size
Hinging rack size 10-half size

60.11.550	Standard, 10 racks (rail spacing 2 5/8 in (68 mm))
60.11.547	8 racks (rail spacing 3 3/8 in (85 mm))
60.11.573	Marine version (USPHS), 10 racks (with load securing)

Pull-out rails for cooking systems 6-half size, 10-half size
Pull-out rails allow for easy access to cooking accessories in hinging racks with 2 5/8 in (68 mm) rail spacing.

60.76.894	Pull-out rails for iCombi Pro and iCombi Classic, 1/1 GN (12 3/4" × 20 7/8")
60.76.897	Pull-out rails for SelfCookingCenter and CombiMaster Plus (from 09/2011), 1/1 GN (12 3/4" × 20 7/8")

Mobile oven rack size 6-half size
Only in combination with run-in rail for mobile racks.

60.61.700	Standard, 6 racks (rail spacing 2 1/2 in (64 mm))
Mobile oven rack size 10-half size
Only in combination with run-in rail for mobile racks.

60.11.400	Standard, 10 racks (rail spacing 2 1/2 in (64 mm))
60.11.601	8 racks (rail spacing 3 1/8 in (80 mm))

Run-in rail for mobile oven rack
Run-in rail is required if using a mobile rack.

60.75.115	Run-in rail standard sizes 6-half size, 10-half size

Transport trolley for mobile racks
The transport trolley allows mobile racks to be loaded and unloaded into the cooking system and safely transported.
The standard version is perfectly matched to the height of the stands.
Height-adjustable transport trolleys are suitable for cooking systems installed on work surfaces and elevated stands.

60.74.000	Standard, dimensions W	D	H: 20 5/8	35 7/8	39 in (525 | 911 | 990 mm)
60.75.606	Height-adjustable, dimensions W	D	H: 20 5/8	35 7/8	31 1/2-52 3/8 in (525 | 911 | 800-1330 mm)
Mobile plate rack
Mobile plate racks can be used to prepare plated food for service (plates up to 12 1/4 in (31 cm) in diameter) using Finishing.
Only in combination with run-in rail for mobile racks.

| 60.61.701	Size 6-half size, 15 plates (max. food height 2 3/4 in (70 mm))
60.11.602	Size 10-half size 26 plates (max. food height 2 3/4 in (70 mm))
Finishing systems for banquets
The Finishing system contains all the important accessories users need in order to start using Finishing immediately.
Consists of mobile plate rack, Thermocover and transport trolley. Only in combination with run-in rail for mobile racks.
Save 15 % over individual purchase prices.

60.11.629	Size 10-half size 26 plates (max. food height 2 3/4 in (70 mm))

Accessories size 6-half size and 10-half size
Thermocover
Special insulation materials keep food hot for up to 20 minutes after Finishing. Easy-to-use magnetic connection allows quick opening and closing.

|	
6004.1007	Size 6-half size
6004.1009	Size 10-half size

USB core temperature probe
Additional external core temperature probes can be connected easily via USB. The single external core temperature probe allows monitoring of a dish in the iCombi Pro, or can be used as a replacement for the iCombi Classic's internal core temperature probe. The sous-vide and pasteurisation kit allows users to cook food inside vacuum pouches, monitoring the core temperature precisely. With the extension set, an external core temperature probe can be attached to another cooking system, which is in compliance with hygiene regulations.

60.76.316	1 Sous-vide and pasteurisation kit for tabletop and floor units
60.76.317	1 external core temperature probe for tabletop units
60.76.876	Extension set for USB core temperature probe on other cooking systems

Positioning aid for core temperature probe
Facilitates the correct placement of the core temperature probe in liquid and in soft or very small products. The positioning aid can be secured to mobile oven racks and hinging racks.

60.71.022	Sizes 6-half size, 10-half size, 6-full size, 10-full size, 20-half size and 20-full size

Wall mount
Allows space-saving wall mounting (anchoring materials not included). Anchors and anchoring materials should be chosen in consultation with an architect/structural engineer and the building owner.

60.31.168	Wall mount size 6-half size

Heat shield for side panel
Retrofitting a heat shield allows you to place a radiant heat source (e.g. grill) near the side panel.

60.75.110	Left heat shield, size 6-half size (W 2 in (53 mm)) 48h
60.75.113	Right heat shield, size 6-half size (W 2 in (53 mm))
60.75.773	Left heat shield, size 10-half size(W 2 in (53 mm)) 48h
60.75.771	Right heat shield, size 10-half size (W 2 in (53 mm))

Condensation breaker
Accelerates the expulsion of steam and other vapors from the vent pipe.

60.72.592	Sizes 6-half size, 10-half size, 6-full size and 10-full size (H 18 in (458 mm))

RATIONAL USB data storage device

42.00.162	USB 3.0 stick for cooking programs and HACCP data

Accessories size 6-full size and 10-full size

Leveling kit
Compensates elevation differences on floor or tabletop assembly. Height can be adjusted by as much as 3/4 in (20 mm).

60.74.597	Leveling kit sizes 6-full size, 10-full size, dimensions W | D | H: 42 1/4 | 32 | 1 3/8 in (1072 | 814 | 34 mm)
60.76.845	Leveling kit for mountable (MarineLine) size 6-full size, 10-full size, dimensions W | D | H: 43 3/8 | 32 | 1 3/8 in (1103 | 814 | 34 mm)

Mobile floor installation kit
Kit with height-adjustable rollers. Stepless height adjustment by up to 3/4 in (20 mm).

60.31.635	Sizes 6-full size, 10-full size dimensions W | D | H: 43 1/2 | 33 3/4 | 3 3/8 in (1106 | 856 | 85 mm) **48h**

Base with feet
The base with feet allows elevated installation of iCombi 6-full size and 10-full size cooking systems. Height can be adjusted by as much as 3/4 in (20 mm).

60.31.671	Sizes 6-full size, 10-full size dimensions W | D | H: 43 | 32 7/8 | 6 in (1092 | 835 | 152 mm)

Low stand II
3 pairs of supporting rails. Open on two sides, with side walls.

60.31.208	Standard, dimensions W | D | H: 42 5/8 | 35 1/2 | 17 1/2 in (1082 | 903 | 445 mm)

Stand I
Open on all sides.

60.31.090	Standard, dimensions W | D | H: 42 5/8 | 34 7/8 | 27 1/2 in (1082 | 885 | 699 mm) **48h**
60.31.102	With height-adjustable casters, dimensions W | D | H: 43 1/2 | 37 7/8 | 27 1/2 in (1106 | 963 | 699 mm) **48h**
60.31.109	With anchoring (MarineLine), dimensions W | D | H: 43 5/8 | 35 7/8 | 27 1/2 in (1107 | 910 | 699 mm)

Stand II
14 pairs of supporting rails. Open on two sides, with side walls.

60.31.087	Standard, dimensions W | D | H: 42 5/8 | 35 1/2 | 27 1/2 in (1082 | 903 | 699 mm) **48h**
60.31.104	With height-adjustable casters, dimensions W | D | H: 43 1/2 | 38 1/8 | 27 1/2 in (1106 | 969 | 699 mm) **48h**
60.31.111	With anchoring (MarineLine), dimensions W | D | H: 43 5/8 | 36 1/8 | 27 1/2 in (1107 | 916 | 699 mm)

Stand II MobilityLine
14 pairs of supporting rails. Open on two sides, with side walls, reinforced sides. Four stainless steel casters, diameter 7 3/4 in (200 mm). Overlay with lateral impact protection supports.

|	
60.31.165	MobilityLine, dimensions W | D | H: 56 | 43 1/8 | 31 1/8 in (1421 | 1094 | 789 mm)

Accessories size 6-full size and 10-full size

Stand III
14 pairs of supporting rails. Open on one side, with side walls, back wall and top cover.
60.31.092	Standard, dimensions W | D | H: 42 5/8 | 35 1/2 | 27 1/2 in (1082 | 903 | 699 mm)
60.31.106	With height-adjustable casters, dimensions W | D | H: 43 1/2 | 38 1/8 | 27 1/2 in (1106 | 969 | 699 mm)
60.31.113	With anchoring (MarineLine), dimensions W | D | H: 43 5/8 | 36 1/8 | 27 1/2 in (1107 | 916 | 699 mm)
Stand III version UltraVent, size 6-full size
20 pairs of supporting rails. Open on one side, with side walls, back wall and top cover. Elevated for installation with a recirculating hood.

60.31.216	Standard, dimensions W | D | H: 42 5/8 | 35 1/2 | 37 1/4 in (1082 | 903 | 945 mm)
60.31.217	With height-adjustable casters, dimensions W | D | H: 43 1/2 | 38 1/8 | 37 1/4 in (1106 | 969 | 945 mm)

Stand IV
14 pairs of supporting rails. Closed on all sides, with 2 hinged doors.

60.31.094	Standard, dimensions W | D | H: 42 5/8 | 35 1/2 | 27 1/2 in (1082 | 903 | 699 mm)
60.31.108	With height-adjustable casters, dimensions W | D | H: 43 1/2 | 38 1/8 | 27 1/2 in (1106 | 969 | 699 mm)
60.31.115	With anchoring (MarineLine), dimensions W | D | H: 43 5/8 | 36 1/8 | 27 1/2 in (1107 | 916 | 699 mm)

UltraVent (only available for electric cooking systems)
Recirculating hood to capture and divert steam. No external connection necessary.
1 ph 120 V electrical connection, dimensions W \| D \| H: 42 1/4 \| 42 5/8 \| 12 1/4 in (1075 \| 1085 \| 313 mm)

60.76.180	Sizes 6-full size, 10-full size

### UltraVent Plus (only available for electric cooking systems)
Recirculating hood to capture and divert steam. Special filter technology reduces bothersome smoke. No external connection necessary.
1 ph 120 V electrical connection, dimensions W \| D \| H: 42 1/4 \| 42 5/8 \| 16 in (1075 \| 1085 \| 407 mm)

60.76.178	Sizes 6-full size, 10-full size

Hinging rack size 6-full size

60.62.123	Standard, 6 racks (rail spacing 2 5/8 in (68 mm))
60.62.171	5 racks (rail spacing 3 3/8 in (85 mm))
60.62.168	7 racks (rail spacing 2 1/2 in (65 mm))
60.62.178	Marine version (USPHS), 6 racks (with load securing)
Hinging rack size 10-full size

60.12.133	Standard, 10 racks (rail spacing 2 5/8 in (68 mm))
60.12.143	8 racks (rail spacing 3 3/8 in (85 mm))
60.12.146	Marine version (USPHS), 10 racks (with load securing)

Full size Sheet Pan Adapter
For use of full size sheet pans 18'' x 26''. Combination of several adapters is possible for hinging racks only (max. 3 for size 6-full size and 5 for size 10-full size).

60.12.156	Full size Sheet Pan Adapter sizes 6-full size, 10-full size

Accessories size 6-full size and 10-full size

Mobile oven rack size 6-full size
Only in combination with run-in rail for mobile racks.

60.62.150	Standard, 6 racks (rail spacing 2 1/2 in (64 mm))

Mobile oven rack size 10-full size
Only in combination with run-in rail for mobile racks.

60.12.150	Standard, 10 racks (rail spacing 2 1/2 in (63 mm))

Run-in rail for mobile oven rack
Run-in rail is required if using a mobile rack.

| 60.74.650	Run-in rail standard sizes 6-full size, 10-full size

Transport trolley for mobile racks
The transport trolley allows mobile racks to be loaded and unloaded into the cooking system and safely transported.
The standard version is perfectly matched to the height of the stands.
Height-adjustable transport trolleys are suitable for cooking systems installed on work surfaces and elevated stands.

| 60.73.999 | Standard, dimensions W | D | H: 28 7/8 | 39 1/8 | 38 7/8 in (735 | 996 | 990 mm) |
|---|---|
| 60.75.605 | Height-adjustable, dimensions W | D | H: 28 7/8 | 39 | 31 1/2-52 3/8 in (735 | 990 | 800-1330 mm) |
Mobile plate rack
Mobile plate racks can be used to prepare plated food for service (plates up to 12 1/4 in (31 cm) in diameter) using Finishing.
Only in combination with run-in rail for mobile racks.

| 60.62.017	Size 6-full size, 34 plates (max. food height 2 3/8 in (61 mm))
60.12.062	Size 10-full size, 42 plates (max. food height 3 1/4 in (82 mm))
60.12.022	Size 10-full size, 52 plates (max. food height 2 1/2 in (63 mm))
Finishing systems for banquets
The Finishing system contains all the important accessories users need in order to start using Finishing immediately.
Consists of mobile plate rack, Thermocover and transport trolley. Only in combination with run-in rail for mobile racks.
Save 15 % over individual purchase prices.

60.62.196	Size 6-full size, 34 plates (max. food height 2 3/8 in (61 mm))
60.12.154	Size 10-full size, 42 plates (max. food height 3 1/4 in (82 mm))
60.12.155	Size 10-full size, 52 plates (max. food height 2 1/2 in (63 mm))
Thermocover
Special insulation materials keep food hot for up to 20 minutes after Finishing. Easy-to-use magnetic connection allows quick opening and closing.

6004.1016	Size 6-full size

42.00.162	USB 3.0 stick for cooking programs and HACCP data

Cooking and special accessories

VarioSmoker

Smoker box with power supply, power supply holder, and connection cables. Connected to the iCombi Pro (not available for XS) via USB port and controlled through its intelligent cooking paths. Manual operation in all iCombi Pro, iCombi Classic, SelfCookingCenter, CombiMaster Plus and CombiMaster units.
Electrical connection 120 V, 50/60 Hz, 1.33 A, 165 W

60.75.367	VarioSmoker with NEMA 5-15P
Perforated baking trays

Highly heat-conductive baking trays with TriLax non-stick coating for perfect results at temperatures of up to 572°F (300°C).

60.74.147	2/3 GN (12 3/4" × 14")
6015.1103	1/1 GN (12 3/4" × 20 7/8")
6015.2103	2/1 GN (25 5/8" × 20 7/8")

Roasting and baking trays (non-perforated)

Highly heat-conductive baking trays with TriLax non-stick coating for perfect cooking and baking results at temperatures of up to 572°F (300°C).
60.73.671	2/3 GN (12 3/4" × 14")
6013.1103	1/1 GN (12 3/4" × 20 7/8")
6013.2103	2/1 GN (25 5/8" × 20 7/8")

Diamond and grill grate

The diamond and grill grate with TriLax non-stick coating yields classic single-stripe grill marks on one side; the other side produces an American steakhouse pattern.

60.73.802	1/2 GN (12 3/4" × 10 3/8")
60.73.801	2/3 GN (12 3/4" × 14")
60.73.314	1/1 GN (12 3/4" × 20 7/8")

Grilling and searing plate

Multifunctional grilling and searing plate with TriLax non-stick coating, ideal for diagonal grill patterns on panfried foods, fish, and vegetables. The peripheral lip on the back is helpful when roasting foods high in fat or liquid.

60.71.617	1/1 GN (12 3/4" × 20 7/8")

Grill and pizza tray

Highly heat-conductive grill and pizza tray with TriLax non-stick coating. Ideal for cooking fresh or convenience pizzas, tartes, and flatbreads at temperatures of up to 572°F (300°C). The reverse side of the tray is suitable for grilling steaks, vegetables, or fish.

60.73.798	2/3 GN (12 3/4" × 14")
60.70.943	1/1 GN (12 3/4" × 20 7/8")
CombiGrill with loading aid

The CombiGrill with TriLax non-stick coating yields perfect grill marks on pan-fried foods, fish and vegetables. No preheating necessary.
The stainless steel loading aid facilitates grilling of large quantities of very thin products on the preheated CombiGrill.

6035.1017	CombiGrill 1/1 GN (12 3/4" × 20 7/8")
60.73.848	Loading aid for CombiGrill 12 × 24 3/8 in (325 × 618 mm) (for 1/1 GN (12 3/4" × 20 7/8"))

Cooking and special accessories
Roasting and baking pan
The corrugated underside ensures even browning and the TriLax nonstick coating prevents food from sticking.
The carrier sheet allows safe and easily handling when loading large quantities.

60.73.286	Set of small baking and roasting pans (quantity: 4 including tray)
60.73.287	Set of large baking and roasting pans (quantity: 2 including tray)
60.73.271	Roasting and baking pan, small (ø 6 1/4 in (16 cm))
60.73.272	Roasting and baking pan, large (ø 9 7/8 in (25 cm))
60.73.212	1/1 GN tray for small baking and roasting pan
60.73.216	1/1 GN tray for large baking and roasting pan

Multibaker
The Multibaker with TriLax non-stick coating is suitable for preparing large quantities of fried eggs, omelets, hash browns, and tortilla, etc.

60.73.646	2/3 GN (12 3/4" × 14") 5 molds
60.71.157	1/1 GN (12 3/4" × 20 7/8") 8 molds

CombiFry
For preparing large quantities of pre-fried products.

6019.1250	1/2 GN (12 3/4" × 10 3/8")
60.73.619	2/3 GN (12 3/4" × 14")
6019.1150	1/1 GN (12 3/4" × 20 7/8")
Chicken and duck superspike
Chickens and ducks are arranged vertically on the patented superspikes, creating particularly succulent breast meat combined with crispy and uniformly browned skin.

6035.1015	Capacity 4 pc., max. weight 2.9 lbs (1300 g), 1/2 GN (12 3/4" × 10 3/8")
6035.1016	Capacity 6 pc., max. weight 4 lbs (1800 g), 1/1 GN (12 3/4" × 20 7/8")
6035.1006	Capacity 8 pc., max. weight 2.9 lbs (1300 g), 1/1 GN (12 3/4" × 20 7/8")
6035.1010	Capacity 10 pc., max. weight 2 lbs (950 g), 1/1 GN (12 3/4" × 20 7/8")
6035.1009	Duck superspike, capacity: 8 pc., max. weight 4.9 lbs (2200 g), 1/1 GN (12 3/4" × 20 7/8")
Chicken spit for horizontal chicken roasting for full-Size models

60.73.334	Chicken spit 20 in (530 mm) long (two chicken per spit)
Rib rack
Ribs are arranged vertically on the rib rack, which means that they can be gently cooked to perfection – even overnight - while fully utilizing the available capacity.

6035.1018	1/1 GN (12 3/4" × 20 7/8")
Potato Baker
With unique potato baker by RATIONAL, you can prepare baked potatoes or corn on the cob up to 50% faster, without using aluminum foil.

6035.1019	1/1 GN (12 3/4" × 20 7/8")

Cooking and special accessories
Grill and tandoori skewer

Stainless steel skewers and a matching frame, used to prepare pieces of meat or poultry, whole fish or fish fillets. Extremely robust, high-quality stainless steel. Dishwasher safe for easy cleaning.

60.75.782	Set 2/3 GN (12 3/4" × 14")(1 skewer frame and 5 different skewers)
60.72.414	Set 1/1 GN (12 3/4" × 20 7/8") (1 skewer frame and 5 different skewers)
60.74.963	Grill and tandoori skewer frame 2/3 GN (12 3/4" × 14")
60.72.224	Grill and tandoori skewer frame 1/1 GN (12 3/4" × 20 7/8")
60.75.783	5 skewers O 1/4 in (5 mm), 10 3/8 in (265 mm) long for 2/3 GN (12 3/4" × 14")
60.75.784	5 skewers □ 1/4 in (5 mm), 10 3/8 in (265 mm) long for 2/3 GN (12 3/4" × 14")
60.75.785	5 fish skewers 3/8 in (10 mm), 10 3/8 in (265 mm) long for 2/3 GN (12 3/4" × 14")
60.72.416	3 skewers O 1/4 in (5 mm), 20 7/8 in (530 mm) long for 1/1 GN (12 3/4" × 20 7/8")
60.72.417	3 skewers O 3/8 in (8 mm), 20 7/8 in (530 mm) long for 1/1 GN (12 3/4" × 20 7/8")
60.72.418	3 skewers □ 1/4 in (5 mm), 20 7/8 in (530 mm) long for 1/1 GN (12 3/4" × 20 7/8")
60.72.419	3 skewers □ 3/8 in (8 mm), 20 7/8 in (530 mm) long for 1/1 GN (12 3/4" × 20 7/8")
60.72.420	3 fish skewers 3/8 in (10 mm), 20 7/8 in (530 mm) long for 1/1 GN (12 3/4" × 20 7/8")

Muffin and timbale mold

Muffin and timbale molds are made of a highly flexible material. They are perfect for cooking vegetable quiches, fish timbales, bread pudding, poached eggs, a wide range of desserts, and more. Filling volume approx. 3.4 fl oz (100 ml).
6017.1002	11 3/4 × 15 3/4 in (300 × 400 mm) (for 1/1 GN (12 3/4" × 20 7/8"))
6017.1001	23 5/8 × 15 3/4 in (400 × 600 mm) (for 2/1 GN (25 5/8" × 20 7/8")

Granite-enameled containers

Excellent heat conductivity ensures uniform browning. Fully formed corners so that all portions are equal in size. Especially suited to sheet cakes, pies, and pan pizzas.

6014.1202	1/2 GN (12 3/4" × 10 3/8"), 3/4 in (20 mm) deep
6014.1204	1/2 GN (12 3/4" × 10 3/8"), 1 1/2 in (40 mm) deep
6014.1206	1/2 GN (12 3/4" × 10 3/8"), 2 3/8 in (60 mm) deep
6014.2302	2/3 GN (12 3/4" × 14"), 3/4 in (20 mm) deep
6014.2304	2/3 GN (12 3/4" × 14"), 1 1/2 in (40 mm) deep
6014.2306	2/3 GN (12 3/4" × 14"), 2 3/8 in (60 mm) deep
6014.2310	2/3 GN (12 3/4" × 14"), 4 in (100 mm) deep
6014.1102	1/1 GN (12 3/4" × 20 7/8"), 3/4 in (20 mm) deep
6014.1104	1/1 GN (12 3/4" × 20 7/8"), 1 1/2 in (40 mm) deep
6014.1106	1/1 GN (12 3/4" × 20 7/8"), 2 3/8 in (60 mm) deep
6014.1110	1/1 GN (12 3/4" × 20 7/8"), 4 in (100 mm) deep
6014.2102	2/1 GN (25 5/8" × 20 7/8"), 3/4 in (20 mm) deep
6014.2104	2/1 GN (25 5/8" × 20 7/8"), 1 1/2 in (40 mm) deep
6014.2106	2/1 GN (25 5/8" × 20 7/8"), 2 3/8 in (60 mm) deep

Pizza pan

Pizza pan for mobile plate racks, for baking convenience pizzas in no time. Just load the pizza pans into the mobile plate rack and use Finishing to heat them through.

60.71.158	Pizzas up to 11 in (280 mm) in diameter

Cooking and special accessories
Lamb and suckling pig spit (1 lamb or 1 suckling pig)
For preparing whole lambs or suckling pigs. Just insert the skewer and attach it.

60.70.819	Sizes 10-half size, 10-full size, 20-half size, 20-full size to 26.5 lbs (12 kg) (1/1 GN (12 3/4" × 20 7/8"))
6035.1003	Size 20-half size to 66 lbs (30 kg) (1 spit with holder)
6035.1002	Size 20-full size to 66 lbs (30 kg) (1 spit with holder, optional second spit for lamb or suckling pig)
8710.1065	Additional spit
Fat collection container with drain lock (including cover and drain hose)
Ideal for catching fat when grilling and roasting. The fat collection container can be emptied easily and safely using the lockable drain valve and the drain hose.

8710.1135	1/1 GN (12 3/4" × 20 7/8")
60.70.776	2/1 GN (25 5/8" × 20 7/8")

Collection tray for cooking systems with factory-installed integrated fat drain option.

60.72.590	For hinging rack size 6-half size, size 10-half size
60.73.547	For mobile rack size 6-half size, size 10-half size
60.72.617	For hinging rack size 6-full size, size 10-full size
60.72.873	For mobile rack size 6-full size, size 10-full size

Gastronorm containers
Stainless steel grid

6010.2301	2/3 GN (12 3/4" × 14")
6010.1101	1/1 GN (12 3/4" × 20 7/8")
6010.2101	2/1 GN (25 5/8" × 20 7/8")

Containers, stainless steel
RATIONAL containers have extra-thick walls that provide maximum stability and durability, even with large filling quantities. Prominent stacking collars allow space-saving stacking.

6013.2302	2/3 GN (12 3/4" × 14"), 3/4 in (20 mm) deep
6013.2306	2/3 GN (12 3/4" × 14"), 2 1/2 in (65 mm) deep
6013.1102	1/1 GN (12 3/4" × 20 7/8"), 3/4 in (20 mm) deep
6013.1104	1/1 GN (12 3/4" × 20 7/8"), 1 1/2 in (40 mm) deep
6013.1106	1/1 GN (12 3/4" × 20 7/8"), 2 1/2 in (65 mm) deep
Perforated container, stainless steel

6015.1165	1/1 GN (12 3/4" × 20 7/8"), 2 1/8 in (55 mm) deep

iCombi compatibility package

Allows usage of accessories designed for different generations of units.

Size 6-half size and 10-half size
Compatibility package consisting of run-in rail and transport trolley, ensures that new mobile racks can be used with units manufactured in or after 2004.

60.61.745	Compatibility package incl. transport trolley, standard, dimensions W | D | H: 20 5/8 | 35 7/8 | 39 in (525 | 911 | 990 mm) for tabletop units
60.61.746	Compatibility package incl. transport trolley, height-adjustable, dimensions W | D | H: 20 5/8 | 35 7/8 | 31 1/2-52 3/8 in (525 | 911 | 800-1330 mm) for tabletop units

Size 6-full size and 10-full size
Compatibility package consisting of run-in rail and transport trolley, ensures that new mobile racks can be used with units manufactured in or after 2004.

60.62.197	Compatibility package incl. transport trolley, standard, dimensions W | D | H: 28 7/8 | 39 1/8 | 38 7/8 in (735 | 996 | 990 mm) for tabletop units

Size 20-half size
Compatibility package consisting of centering track, unit height extension, and iCombi mobile rack; allows new mobile racks to be used with units manufactured in or after 2004.

60.21.482	Compatibility package incl. mobile rack standard, 20 racks (rail spacing 2 1/2 in (65 mm)) for floor units
60.21.337	Compatibility package incl. mobile rack 15 racks (rail spacing 3 1/4 in (84 mm)) for floor units
60.21.338	Compatibility package incl. mobile rack 16 racks (rail spacing 3 1/8 in (80 mm)) for floor units
60.21.340	Compatibility package incl. mobile plate rack size 20-half size, 60 plates for floor units
60.21.341	Compatibility package incl. mobile plate rack size 20-half size, 50 plates for floor units

Size 20-full size
Compatibility package consisting of centering track, unit height extension, and iCombi mobile rack; allows new mobile racks to be used with units manufactured in or after 2004.

60.22.498	Compatibility package incl. mobile rack standard, 20 racks (rail spacing 2 1/2 in (65 mm)) for floor units
60.22.499	Compatibility package incl. mobile rack 15 racks (rail spacing 3 1/4 in (84 mm)) for floor units
60.22.500	Compatibility package incl. mobile plate rack size 20-full size, 84 plates for floor units
60.22.501	Compatibility package incl. mobile plate rack size 20-full size, 100 plates for floor units
60.22.502	Compatibility package incl. mobile plate rack size 20-full size, 120 plates for floor units

Adapter kit
For installing a UltraVent or UltraVent Plus on a SelfCookingCenter (for all units from SelfCookingCenter whitefficiency onward, manufactured 09/2011 or after) or CombiMaster Plus.

60.75.148	Adapter kit for sizes 61 and 101, for individual electric units only
60.75.149	Adapter kit for size 62, for individual electric units only
60.76.604	Adapter kit for size 102, for individual electric units only

SelfCookingCenter or CombiMaster Plus models 04/2004 through 09/2011

60.76.837	Adapter kit for sizes 61 and 101, for individual electric units only

RATIONAL USB data storage device
USB 2.0 stick for cooking programs and HACCP data, for SelfCookingCenter and CombiMaster Plus

42.00.386	USB 2.0 stick

Certification marks for iCombi

The following certification seals confirm that our cooking systems meet defined standards and guidelines set forth by independent testing and certification bodies. So that you will know at first glance that our systems meet national and international safety standards, that we prioritize exceptional product quality, and that we demonstrably maintain that quality. Additional information is available at rational-online.com.

CE conformity defines the major safety requirements on products marketed within Europe.

ENERGY STAR is a voluntary, international certification program. It certifies particularly energy-efficient products based on utility saving criteria set forth by the EPA and the US Department of Energy.

KIWA focuses on the European market, and on testing, inspecting, and certifying equipment in the electrical, gas, and water segments. Equipment is also inspected according to defined quality and safety standards.

The NSF-HCV certifies the hygienic safety of food preparation equipment used in Europe.

CSA is a North American certification signifying complete fulfillment of all legally relevant specifications regarding gas approval for bringing new appliances into the market.

The NSF guarantees international adherence to NSF/ANSI hygiene standards when new appliances are brought onto the market.

UL evaluates and certifies the safety of electrical products that are marketed in North America.

QA is a quality certification for gas appliances in the Netherlands; it certifies that appliances meet the specified requirements on quality, functionality, and safety.

This certificate sets forth quality, safety, and usage requirements on gas and water appliances brought onto the Swiss market.

The EAC defines the most important Eurasian quality and safety requirements on appliances.

Electrical and electronic appliances intended for the Japanese market must meet the requirements set forth in PSE safety standards.

JIA signifies fulfillment of specific drinking water protection requirements for the Japanese market.

The JIA is an inspection association that tests and certifies gas appliances for the Japanese market.

The KTL is for the Korean market; it confirms that electrical appliances meet product safety requirements.

KGS certifies that basic requirements for gas appliance approval have been met in accordance with Korean standards.

Watermark certifies appliances for the Australian market, ensuring that they are suitable and appropriately approved for their intended use.

AGA applies to the Australian market; it verifies that gas appliances fulfill Australian gas safety standards.

INMETRO is relevant to all electrical appliances or components with connected loads under 20 kW in Brazil.

IRAM specifies approval requirements for the Argentinian market, focusing on electronics, gas, mechanics, hygiene, safety, and food.

The DNV GL is an international classification society that certifies marine versions of appliances.

iCookingSuite with Poultry, Meat, Fish, Egg Dishes, Sides, Baked Goods, and Finishing cooking modes, as well as Boil, Roast, Bake, and Grill cooking processes; desired results can be specified easily, and the ideal cooking and baking paths are adjusted automatically.	●	●	●	–	–
Country-specific cooking parameter presets, independent of language settings. Application examples with presets for other countries can also be selected.	●	●	●	–	–
Cockpit: Displays cooking steps within current intelligent cooking path. Current cooking step marked.	●	●	●	–	–
Messenger - provides information on current automatic adjustments to cooking and baking process, displays action prompts as pop-up windows	●	●	●	–	–
Automatic Cool-Down function for intelligent climate establishment with water spraying (optionally selectable) for quicker cooling	●	●	●	–	–
Manually selectable cooling function for quick, safe cooking cabinet cool-down	●	●	●	●	●
Users can actively modify cooking parameters at any time while intelligent cooking paths are in progress	●	●	●	–	–
Possible to change from intelligent cooking paths to iProductionManager or manual cooking. Users can switch between manual cooking and iProductionManager	●	●	●	–	–
iProductionManager – intelligent, flexible organization of the entire production process. Displays which products can be prepared together; individually monitors each rack – even on mixed loads. Notifications when each dish needs to be put in or taken out. Tickets can be placed for current time or in the future; automatically arranged optimized for shortest cooking time or lowest energy consumption. Alternatively: Tickets can be arranged such that food is finished at a selected target time	●	●	●	–	–
Level indication iProductionManager – iProductionManager – signals which tray needs to be loaded or unloaded iCookingSuite or manual mode – uses LED lighting to signal cooking path steps such as end of preheating, end of cooking path, or action prompts	–	●	–	–	–
Intelligent preheating and load management - product-dependent, immediate loading with no waiting time, with great results	●	●	●	–	–
iDensityControl - intelligent climate management always establishes the right cooking cabinet climate using intelligent thermocouples, high-performance heating system, fresh steam generator, and active dehumidification. Intelligent air circulation always directs energy wherever it is needed.	●	●	●	–	–
ClimaPlus – accurate humidity measurement; 10 setting and regulation levels	–	–	–	●	●
Highly effective active cooking cabinet dehumidification - up to 28 gal (105 l) per second, ensuring exceptional cooking results	●	●	●	●	●
Combi-steamer with the following modes: Steam 85°F–265°F (30°C–130°C), Convection 85°F–572°F (30°C–300°C), Combination of steam and convection 85°F–572°F (30°C–300°C)	●	●	●	●	●
Automatic intelligent Finishing for plated banquets, buffet, - á la carte, etc.	●	●	●	–	–
Finishing programs for plated banquets and containers	–	–	–	●	●
Low-temperature cooking (including overnight)	●	●	●	–	–
Delta-T cooking for gentle cooking of large meat cuts, including overnight	●	●	●	●	●
Intelligent smoking paths when using the VarioSmoker (not available for 20-full size)	–	●	●	–	–

iVario options

Pressure cooking

The pressure cooking option enables faster and yet still gentle cooking of a wide range of different dishes.
Uniform, optimal pressure levels are guaranteed, which preserves the cellular structure of the food. This is a reliable and low maintenance system.
Maximum pressure: 4.35 PSI (300 mbar).

iVario 2-XS	iVario Pro 2-S	iVario Pro L	iVario Pro XL
–	48h ○	○	48h ○

iZoneControl

Flexible division of the pan base into zones using different temperatures.

iVario 2-XS	iVario Pro 2-S	iVario Pro L	iVario Pro XL
○	●	●	●

Low temperature cooking

Use of intelligent cooking paths for low-temperature cooking, confit, and sous-vide cooking.

iVario 2-XS	iVario Pro 2-S	iVario Pro L	iVario Pro XL
○	●	●	●

Lockable deep-fry mode

The "Deep Fry" cooking mode can be turned off. This option can be used if deep frying is specifically not wanted.
It can be switched on again at a later time.

SOLAS signal output (Safety of Lives on Sea)

The cooking system has an additional safety temperature limiter and can be connected to an external 230V signaling device (max. 8A, not included). In this case, corresponding connection clamps inside the cooking system are pre-assembled and enable checking the cooking system's voltage connection, checking the oil overheating and shutting down the cooking system by means of an external emergency shutdown (device not included in delivery). A potential-free contact is integrated and therefore does not have to be ordered separately. Cannot be combined with the "socket with circuit breaker protection" option.

Note:
Only the following configurations are permitted for a Marine installation (DNV-GL):
iVario 2-XS and iVario Pro 2-S Cooking system with 3 1/2 in (90 mm) plastic feet, unit anchoring kit (60.76.118) and MarineLine stand (Model 2-XS: 60.31.701, Model 2-S: 60.31.702).
iVario Pro L and iVario Pro XL Cooking system with base with stainless steel feet.
The stainless steel feet of the stands/bases must always be welded or screwed to the floor.

iVario 2-XS	iVario Pro 2-S	iVario Pro L	iVario Pro XL
○	○	○	○

iVario options

Wiring for remote switchoff and signal output

The cooking system can be connected to a 230V external signaling device (max. 8A, not included in delivery). In this case, the cooking system comes with the corresponding connection terminals pre-installed inside. This makes it possible to display cooking system electrification, indicate oil overheating, and decommission the cooking system via external emergency switchoff (apparatus not included in delivery). A potential-free contact is integrated and thus does not need to be ordered separately. Cannot be combined with the "socket with circuit breaker protection" option.

iVario 2-XS	iVario Pro 2-S	iVario Pro L	iVario Pro XL
○	○	○	○

Lockable control panel

The lockable control panel protects the unit against unauthorized usage.

60.31.433	Size 2-XS, 2-S **48h**

MarineLine stand

10 pairs of 1/1 GN (12 3/4" × 20 7/8") support rails with locks. Side panels and top closed, rear panel open. 4 stainless-steel feet with flange prepared for secure anchoring (not height-adjustable).
The cooking system must be attached to the stand with the unit anchoring kit, item no. 60.76.118.

60.31.701	Size 2-XS, dimensions W | D | H: 43 1/4 | 27 3/8 | 23 3/8 in (1100 | 694 | 595 mm)
60.31.702	Size 2-S, dimensions W | D | H: 43 1/4 | 34 1/2 | 23 3/8 in (1100 | 876 | 595 mm)

Setup options - iVario Pro L and iVario Pro XL

The iVario can be integrated perfectly into almost any kitchen. Its modular concept permits a wide range of installation and set-up options, depending on what your customers need.

Unit with electrically powered, height-adjustable feet

Setting range: + 6 7/8 in (175 mm) / - 1 in (25 mm) compared to standard height. Assembly with a base and electrically powered, height-adjustable feet, for installation as floor unit. No separate electrical connection required; controlled via the iVario display. Flexible drain hose included.

Option	Size L
Option	Size XL

Unit with plastic feet

Standard, default configuration includes 5 7/8 in (150 mm) high adjustable plastic feet, for installation as a floor standing unit.

Standard	Size L, XL	●

Stainless steel feet kit

5 7/8 in (150 mm) high adjustable and flanged stainless steel feet. (Can be bolted to floor, hardware not included).

60.74.500	Size L, XL

Caster kit

4 casters ø 5 in (125 mm), 2 lockable. Effective height: 5 7/8 in (150 mm) (not height adjustable). Cannot be combined with pressure cooking option.

60.71.267	Size L, XL

Rear panel for base

The rear panel closes the area between the side sections, thereby covering the connections. Can be combined with all base variations. It cannot be combined with the "storage cabinet for base".

60.76.306	Size L
60.76.305	Size XL

Storage cabinet for base

Storage cabinet in the base provides support rails for storing GN containers and accessories. Back closed. Can be combined with all base variations. It cannot be combined with the "rear panel for base".
60.74.865	Size L
60.74.696	Size XL

Accessories size 2-XS

Standard accessories size 2-XS (included in the price of iVario 2-XS)
Consists of:

2 × 60.74.791	Arm for automatic raising/lowering size 2-XS		1 × 60.74.970	Boiling basket size 2-XS
1 × 60.75.019	Frying basket size 2-XS		1 × 60.74.666	Strainer size 2-XS
1 × 60.73.927	Cleaning scrub			

Spatula
Stainless steel, ergonomic tool for turning and removing products in the iVario.

60.71.643	Scraper 25, width 9 7/8 in (250 mm)

Certification marks for iVario

The following certification seals confirm that our cooking systems meet defined standards and guidelines set forth by independent testing and certification bodies. So that you will know at first glance that our systems meet national and international safety standards, that we prioritize exceptional product quality, and that we demonstrably maintain that quality. Additional information is available at rational-online.com.

CE conformity defines the major safety requirements on products marketed within Europe.

The GS sign is recognized in Europe as a symbol of safety. The GS sign guarantees the end consumer that the product has undergone a safety check by an authorized, independent third party (Intertek).

The NSF guarantees international adherence to NSF/ANSI hygiene standards when new appliances are brought onto the market.

The ETL Safety Symbol is a safety indicator for the North American market. It signals that products have been tested in an accredited third-party testing laboratory and meet the applicable safety standards and minimum requirements for distribution within North America.

This certificate sets forth quality, safety, and usage requirements on gas and water appliances brought onto the Swiss market.

The EAC defines the most important Eurasian quality and safety requirements on appliances.

Watermark certifies appliances for the Australian market, ensuring that they are suitable and appropriately approved for their intended use.

INMETRO is relevant to all electrical appliances or components with connected loads under 20 kW in Brazil.

IRAM specifies approval requirements for the Argentinian market, focusing on electronics, gas, mechanics, hygiene, safety, and food.

The DNV GL is an international classification society that certifies marine versions of appliances.

The UA TR defines the most important requirements on appliances pursuant to Ukrainian quality and safety standards.

TZW: offers hygienic suitability inspections with a special focus on drinking water protection for all segments of the national and international water industry.

As an international provider of professional cooking systems, RATIONAL has authorized its products for wireless connectivity wherever this is allowed. Please do not hesitate to contact us for more information.

The Regulatory Compliance Mark (RCM) is a trademark of the Electrical Regulatory Authorities (RAs) and the Australian Communications Media Authority (ACMA) that signifies compliance with the Australian Standard for electrical products.

KUK WATER REG4 is the KIWA certification mark for the UK market. This allows sanitary products and materials to demonstrate compliance with the Water Supply (Plumbing Fixtures) Regulations of 1999.

The NSF-HCV certifies the hygienic safety of food preparation equipment used in Europe.

ConnectedCooking

ConnectedCooking is a Cloud-based networking solution and application for mobile end devices for the automatic documentation of HACCP data, for the creation of cooking programs and cooking program management, and for automatic software updates. ConnectedCooking follows the motto: "Comfort. Safety. Inspiration." and offers completely new and convenient application options.

As a Could platform, it allows all functions to be used directly. For iPhones, iPads and Android tablets and Android smart phones, the ConnectedCooking app is available for download in the relevant app stores.

Register at: **ConnectedCooking.com**

Communication interfaces
REST API
The REST API allows you to transfer HACCP data from ConnectedCooking to third-party systems. This requires that the cooking systems be registered on ConnectedCooking. REST API (also known as RESTful API) is an API (Application Programming Interface) or web API which is subject to REST architecture restrictions; it enables interaction with RESTful web services.

ConnectedCooking	REST API	free

OPC UA
The DIN 18898-compliant OPC UA communications interface enables secure and versatile networking of RATIONAL cooking systems within an existing network. The OPC UA via Cloud option is available for the iCombi Pro, iVario, SelfCookingCenter, and VarioCookingCenter. This requires that the cooking systems be registered on ConnectedCooking.

Our Terms and Conditions

Delivery	FOB Rolling Meadows, IL. Inventoried items are available for shipment within 48 hours of order confirmation. Production lead time on out of stock items is 5-8 weeks. Please call for inventory status.
Certified Installation	A professionally dispatched and reviewed install process. Any additional cost for the installation outside of the RATIONAL Certified Installation Program is the responsibility of the customer. For detailed information, please refer to the RATIONAL Certified Installation Flyer. RATIONAL Certified installation program includes the assembly of the unit, setting the equipment in place, leveling it, and connecting the unit to the customer-provided utilities within five(5) feet of the unit's installed location. If the final connections cannot be completed by the RATIONAL installer due to local codes and/or government authorities, the RATIONAL installer will, upon request, provide supervision of the final connections. The use of any additional contractor labor, travel, and/or parts is the responsibility of the customer.
Pre-Installation Site Consultation	The RATIONAL installer will perform a Pre-Installation Site Consultation of the location, where the RATIONAL equipment is to be installed. Upon completion of the consultation the installer will advise of required site preparations needed for the installation to begin. Survey of site outside of a 200 mile round-trip (100 each way) from installer will require an additional travel charge.
Contractor labor	On day of installation, customer is responsible to ensure that equipment is placed within 5 feet of installation location upon arrival of RATIONAL installer. Installation of units outside of a 200 mile round-trip (100 each way) from installer will require an Extended Travel Zone rates.

RATIONAL Certified Installation

Installation includes:	Installation does not include:
1) Travel within 100 miles (200 miles round trip) of the installer	1) A Pre-Installation Site Consultation
2) Assembly and stacking of the purchased equipment	2) Overtime travel or labor
3) Placement and leveling of the purchased equipment	3) Delivery of equipment to end user within 5 feet of final location
4) Connection of utilities within 5 feet of unit placement	4) Travel outside 100 miles (200 miles round trip) of the installer
5) Operational/Functional test	5) Special licensing, security access delays or permits
	6) Unpacking, uncrating, and removal of packing material
	7) Connection of utilities beyond 5 feet
	8) Removal and scrapping of old equipment

Pre-Installation Site Consultation	Pre-Installation Site Consultation ensures that the site has the proper space and connections for gas, electric, drain, and water. The consultation includes travel of 100 miles (200 miles round trip) from the installer.
Chef Assistance	4 hours of training by a RATIONAL Certified Chef on your cooking system will be provided.
Warranty	The manufacturer warranty statement is available on the RATIONAL website under CustomerCare Downloads.
Price Quoted	Pertains to all general terms of sale, delivery, and payment, conforming to all agreed upon terms of sale. All sales are final. There is up to a 25% restocking fee on authorized returns that are accompanied by a RATIONAL RGA number. Special order/non-stock items are non-returnable. This pricing supercedes all earlier listings. Prices are subject to change without notice.
Technical Modification	Subject to change without notice.
